Take Home Maths Tasks B:

Forging Connections in Early Mathematics Teaching and Learning Virginia Kinnear, Mun Yee Lai, Tracey Muir, 2017-12-12

This edited book promotes thinking dialogue research and theorisation on multiple ways of making connections in mathematics teaching and learning in early childhood education. The book addresses some key challenges in research policy and practice in early childhood mathematics education. It examines diverse ways for learning experiences to connect young children to mathematics and the importance of forging connections between mathematics and young children's lives as key elements in their engagement with mathematics. Each chapter provides research or theoretical provocations and pedagogical implications for connecting children's lived experiences and ways of learning in mathematics teaching. The chapters are drawn from a range of international authors who raise important ideas within the overall context of current research and consider the theoretical and practical implications of their research. As such, the book advances current thinking on mathematics teaching and learning for children in the early years from birth to eight years, with an emphasis on children aged birth to 5 years. It considers the purpose and value in connecting mathematics teaching and learning to children's lives and provides provocations for both educators and researchers on the many under-researched and under-represented aspects of early years mathematics teaching and learning.

Mathematics Success Class 2 Teacher Resource Book (Academic Year 2023-24), 2023-05-20
Mathematics Success Class 2 Teacher Resource Book Academic Year 2023-24
Targeting Maths Jo Grinham, 2000
In the Targeting Maths series for primary schools. This resource for teachers of middle primary school provides graded units of work involving numeration and fractions. Provides outcomes, activities, extension exercises, games and assessment material. Includes over 90 blackline masters.
Teaching and Targets John Blanchard, 2013-01-11

Teachers, school managers and governors are now more publicly accountable than ever. They are expected to know how their school is performing and how to improve that performance. Target setting is a key tool in the drive to raise standards and has been implemented at every level of the education system. This book explores target setting from both the teacher's and pupil's viewpoint and investigates the role of assessment in successful teaching and learning. It shows that it is possible to develop a whole school target setting policy, co-ordinating the use of targets for individual pupils, subject-specific departments and teams, and whole school improvement plans. In this way, targets can be used positively for the benefit of pupils, teachers and managers. This book will be important reading for headteachers, senior management teams, assessment co-ordinators and subject leaders in schools and will also be of interest to governors and LEA advisors.
Move On Maths! Ages 7-9 John Taylor, 2018-10-24
Move on Maths offers versatile, tried and tested maths resources for 7-9 years for you to use in the way that is most suitable for your pupils. The units give you flexible ideas rather than prescriptive lessons and support the Renewed Primary Framework for mathematics. The PNS Framework objectives are clearly shown for every sheet, followed by unit learning outcomes, so it's easy to choose the right worksheet to suit you and your children's needs. Contains more than

fifty stand alone photocopiable units in four strands to be used in class or as homework tasks complete with teachers notes and answers to help your planning Broadens understanding of four key numeracy strands from the Renewed Primary Framework Using and applying mathematics Understanding Shape Measuring Handling Data Contains a bank of short sharp exercises problems and fun starter activities and games to kick start your maths lesson with the whole class Includes challenges to extend your gifted and talented learners or early finishers Covers PNS Framework objectives and learning outcomes for a two year span Year 3 and 4 Ideal for mixed age classes NSW Targeting Maths Judy Tertini,2002

Reading Strategies for Mathematics Trisha Brummer,Stephanie Macceca,2008-03-05 Take the mystery out of math Help learners in grades 1 8 get it with practical strategies to help them read and understand mathematics content This resource is designed in an easy to use format providing detailed strategies graphic organizers and activities with classroom examples by grade ranges Specific suggestions for differentiating instruction are included with every strategy for various levels of readers and learning styles 208pp plus Teacher Resource CD Work Required Brian Johnston,Stephen Dowdy,1988
