We Are Becoming:

We Are Becoming the Problem Now! Michael Abayomi Alabi, 2019-02-09 When we leave our destiny in the hands of others and live our life in the past we immediately destroy our future Scientists in the human genome industry have proved that all humans are 99.9 percent the same Why then are some ethnicities progressive and others nonprogressive Our current problems are not with the slave or colonial masters We Are Becoming the Problem Now Had we continued in the legacy of our ancestors simply known as slaves we ought to have been the pride and joy of the whole world They went through unimaginable pain sorrow hardship and torment They survived and even succeeded by leaving a godly legacy behind in the Negro spiritual songs and in arts education industry and every conceivable field Our current major problems as blacks in Africa and all over the world simply put are leadership and disunity We do the dirty work by self destroying ourselves and each other Only few illiterate Caucasians would engage in overt discrimination The majority of us have been trained in the art and act of covert self destruction and in the destruction of the whole We have so much zeal but without knowledge We must bear in mind that zeal without knowledge is dead so also knowledge without zeal is equally lifeless Romans 10:2 Not until we harness our zeal and knowledge comprehensively can we live a progressive life It has been said that if the West is to stand still and halt all development and progress Africa would never catch up Yet we have PhDs in every conceivable field Do we blame that on the ancestors of the slave or colonial masters No We are to be blamed We Are Becoming the Problem Now Those who have ears to hear let them hear because time is of the essence **Technology and Human Becoming** Philip Hefner, From a leader in the field of religion and science come these reflections on the role of technology in human life and culture Philip Hefner sees the human spirit at issue in our assessment of and attitude toward technology and the many technological creations that humans spawn Technology he argues tells us much about ourselves especially our innate drive toward exploration of possibilities and poses questions about the final meaning of creating of human cultural evolution and even the being of God *Becoming a Contagious Church* Mark Mittelberg, 2007 Mittelberg offers a vision for turning every church new or old into a contagious church that is a powerful magnet for attracting and influencing unchurched people

The Alchemy of Becoming Diane Fulford, Karen Digner, 2023-09-13 This is a book to be experienced not simply read The Alchemy of Becoming series sets out a methodology that empowers you to raise your level of consciousness to levels never imagined possible The first book and level of this process Being of Truth laid a foundation of authenticity and personal truth In this second installment Being of Love the journey continues as you discover that love is not just a feeling or emotion but rather a powerful life enhancing and life creating force Level 1 reframed fear to trust In Level 2 love is claimed over and beyond fear This is transformation Not just inspiration but transformation to a state of higher consciousness available to us all Einstein claimed that no problem can be solved from the same level of consciousness that created it It is only in higher consciousness that the intractable issues of our times can be addressed This applies equally to our individual lives be it our

health relationships and to our sense of worth and well being Higher consciousness takes you from life happening to you to life happening by you and expressed as you The seven stage alchemic process is the framework for transformation and while the process is universal no two people will have the same experience The experience is personalized to you meaning that it is aligned to your unique vibrational makeup This is a powerful affirming aspect of this methodology as what is revealed to you can only be known by you It all starts with you Transforming yourself to be the alchemist of your own life while serving as a gateway for the change our world so desperately needs
