Willard Jerhom J. S. Horne,2003-04-01 The story has six episodes and they vary broadly in subject matter The first describes Jerhom's ideas of love death music and his fundamental concept of government The second is involved in a family dispute in which a death is used as one part of the solution Subsequently Jerhom and his friend Victor discuss predestination and evolution In the third episode we are made to believe that a man is bent on vengeance after his mother in law took custody of his daughter but events unfold in a peculiar way In the fourth episode a Judge an entrepreneur and a social worker become involved in a strange love triangle In the fifth two brothers are engaged in an inheritance dispute in which the earthly elements play a vital role in resolving the differences Finally the sixth episode deals with several families whose ideas of what home life should be are radically different each strange to the others but individually acceptable to themselves Even though the entire story touches on many of the more disagreeable features of life it has a family quality which is wholesome and acceptable to anyone who is educated enough to read it Written in an exalted style the story has its share of mystery and romance

Thoughts That Burned Steve Gowler,2025-04-15 In Thoughts That Burned Steve Gowler showcases the life of William Goodell one of the most significant leaders of the antebellum antislavery movement Between 1826 and 1864 Goodell edited more than a dozen reform newspapers and played a leading role in the formation of several organizations including the American Anti slavery Society the Liberty Party the American Missionary Association and the Radical Abolition Party His 1852 book Slavery and Anti slavery was the first comprehensive history of the antislavery movement written by an American Convinced that the logic of slavery needed to be investigated and laid bare Goodell explored the institution's deep structures Whereas many abolitionists based their arguments on the inhumane consequences of enslavement Goodell analyzed the legal and psychological relations constituting the slave system At the heart of this analysis was his close reading of Southern slave codes and of the United States Constitution He argued that the Constitution properly understood is incompatible with slavery and should be used as an instrument of emancipation Among those influenced by his constitutional hermeneutic was Frederick Douglass who described Goodell as the man to whom the cause of liberty in America is as much indebted as to any other one American citizen Thoughts That Burned is the first comprehensive biography of this extraordinary thinker whose powerful political and theological arguments grounded abolition within the concept of human rights
