**Willing Evolution (Travel Edition)** David L Laing,2016-10-04 David L Laing s imagery of primordial glyphs recaptures threads to the Higher Self in ideograms not produced by rational thought Intuitive flashes of a deeper more archetypal knowledge open the viewer s consciousness to a universe of fresh perspective bridging the ancient past to the far distant future

**Willing Evolution** David L. Laing,1995-08-01 *Evolutionary Healing* Barbara Sarter,2002 Taking both a spiritual and philosophical approach this book is a reflection of the author s quest to come to terms with the meaning of human suffering The book integrates ancient and modern philisophies of life with modern scientific discovery The author applies these philosophies with the process of healing and describes evolutionary healing as the evolution of one s consciousness through health and disease

**The Evolution of Educational Theory** John Adams,1912 **Evolutionary Theory in the Social Sciences** William M. Dugger,Howard J. Buss,1994 How we choose and lose our mates has always been a source of fascination This controversial book is the first to present a unified theory of human mating behavior The Evolution of Desire is based on the most massive study of human mating ever undertaken encompassing more than 10 000 peoples of all ages from thirty seven cultures worldwide If we all want love why is there so much conflict in our most cherished relationships To answer this question we must look into our evolutionary past according to David M Buss For in attracting keeping and even breaking up with our mates we are closer to our ancestral forebears than many of us think Outlook ,1897 **The Psychology of Personality** Bernardo J. Carducci,2009-03-09 This engaging comprehensive introduction to the field of personality psychology integrates discussion of personality theories research assessment techniques and applications of specific theories The Psychology of Personality introduces students to many important figures in the field and covers both classic and contemporary issues and research The second edition reflects significant changes in the field but retains many of the special features that made it a textbook from which instructors found easy to teach and students found easy to learn Bernardo Carducci s passion for the study of personality is evident on every page **The philosophy of evolution.
