When Writers Write:

How Writers Work Ralph Fletcher, 2000-07-25 The Secret of Writing Its misleading to think of writers as special creatures word sorcerers who possess some sort of magic knowledge hidden from everyone else Writers are ordinary people who like to write They feel the urge to write and scratch that itch every chance they have Writers get their ideas down on paper using particular strategies that seem to work for them These strategies are available to anyone who wants to be a writer Revealed There is no secret But there is a process If you like to write there are definite steps you can take to help you reach your goals Good writing isn't forged by magic or hatched out of thin air Good writing happens when human beings follow particular steps to take control of their sentences to make their words do what they want them to do This book will show you how writers work how you can become a writer and how you can find a process that works for you When Writers Write

Kathleen Macdonald, 1987 **When Writers Read** Jane Hansen, 2001 When writers read they evaluate all the time They can't help it But they can become better at it and that's what this second edition of *When Writers Read* is about what students can do to become better evaluators of themselves as writers and readers and how you can help Extensively revised the second edition is organized around five concepts that are central to an effective writing reading program Voices When writers read they listen for a strong author voice they know they can hear their own when they write and assume other authors voices come through as well It's essential that all voices both those of students and professional writers be honored and supported by an evaluation system dedicated to this notion Decisions When writers read they make decisions so it's only natural that they look for evidence of the decisions other authors make To become effective writers and readers students must learn to make decisions about which types of writing to create what to write and read about where to work when to do so whom to share their work with and what to do to become better writers and readers Time When writers read they read and read and read One of your primary responsibilities as their teacher is to provide plenty of opportunities for them to do so and create an overall framework in which students spend their time wisely Response When writers read they look for a message Students need to understand that to respond effectively to other writers they should listen closely and think appreciatively and critically about the author Self discipline When writers read it's their self discipline that keeps them engaged By providing plenty of good books writing possibilities and self evaluation opportunities you can help ensure your students are self disciplined and eager *When Writers Drive the Workshop* Brian Kessel, 2023-10-10 With increasing school mandates and pressure to perform well on standardized tests writing instruction has shifted to more accountability taking the focus away from the writer In his engaging book *When Writers Drive the Workshop Honoring Young Voices and Bold Choices* author Brian Kessel asks teachers to go back to the roots of the writing workshop and let the students lead the conference What happens when students not tests determine what they learned through reflection and self evaluation In *When Writers Drive the Workshop* you'll find practical ideas guiding beliefs FAQs and Digital Diversions to help visualize
