Struggle Is One:

The Struggle for Democracy Christopher Meckstroth, 2015-07-01 Revolutionaries counter revolutionaries and reformers the world over appeal to democracy to justify their actions But when political factions compete over the right to act in the people's name who is to decide Although the problem is as old as the great revolutions of the seventeenth and eighteenth centuries events from the Arab Spring to secession referendums suggest that today it is hardly any closer to being solved This book defends a new theory of democratic legitimacy and change that provides an answer Christopher Meckstroth shows why familiar views that identify democracy with timeless principles or institutions fall into paradox when asked to make sense of democratic founding and change Solving the problem he argues requires shifting focus to the historical conditions under which citizens work out what it will mean to govern themselves in a democratic way The only way of sorting out disputes without faith in progress is to show in Socratic fashion that some parties' claims to speak for the people cannot hold up even on their own terms Meckstroth builds his argument on provocative and closely argued interpretations of Plato Kant and Hegel suggesting that familiar views of them as foundationalist metaphysicians misunderstand their debt to a method of radical doubt pioneered by Socrates Recovering this tradition of antifoundational argument requires rethinking the place of German idealism in the history of political thought and opens new directions for contemporary democratic theory The historical and Socratic theory of democracy the book defends makes possible an entirely new way of approaching struggles over contested notions of progress popular sovereignty political judgment and democratic change

Dare to Invent the Future Clapperton Chakanetsa Mavhunga, 2023-11-21 A rallying manifesto for the innovative problem solving we need to build a better more verdant and sustainable planetary existence Academics are letting Africa down With all that we know what do we have to show for it Whose lives have been changed for the better by it What have we done for and with our communities lately In this provocative book the first in a trilogy Clapperton Chakanetsa Mavhunga argues that our critical thinkers must become actual thinker doers Taking its title from one of Thomas Sankara's most inspirational speeches Dare to Invent the Future looks for moments in Africa's story where precedents of critical thought and knowledge in service of problem solving are evident to inspire readers to dare to invent such a knowledge system Mavhunga revisits insights from Edward Wilmot Blyden Booker T Washington Aimé Césaire Frantz Fanon Amílcar Cabral Julius Nyerere and Thomas Sankara to illustrate how the academic disciplines have been and could be deployed in the service of and through problem solving building on what people are doing and know At its core he writes knowledge in the service of and through problem solving derives from reading the past for new questions doing due diligence in the present and contriving an anticipatory approach

toward the future Questioning the fundamental premises of Western and white knowledge production especially regarding science and technology Mavhunga proposes in this book refreshingly new approaches to thinking doing that stem from African realities in the hopes of inspiring a generation that will run toward not away from problems to solve them *Finding Meaning in Life, at Midlife and Beyond* David Guttman, 2008-09-30 Having been mentored by Viktor E Frankl the founder of logotherapy Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question at midlife and beyond Especially in this day and age of multiple demands on our time and seemingly non stop obligations we too often find that it is only when the dust settles after a work day or work week or even after retirement when we begin to wonder What is the meaning of life The purpose This book is a new millennium venture into those questions and their answers using logotherapy written by a sage understudy who recalls Frankl with his logotherapy as the epitome of his theory even at 80 years old wise and witty exuding an energy enthusiasm and youthful spirit that belied his years by decades Aging does not diminish our power our energy and our quest for life but reshapes it with new understandings goals and needs But says Guttman we live in a technical and machine based world now in which there is a danger of losing our souls Here readers find a new creative perspective on aging and a fresh spiritual outlook This book will be of interest not only to general readers especially those at midlife and beyond but also to their families friends and students or professionals in the helping professions This unique work provides knowledge to find meaning in life derived from the fields of philosophy psychology religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance **In Defense of Lost Causes** Slavoj Zizek, 2009-10-19 The renowned philosophical sharpshooter looks for the kernel of truth in the fascist politics of the past offering an adrenaline fueled manifesto for universal values Is global emancipation a lost cause Are universal values outdated relics of an earlier age In fear of the horrors of totalitarianism should we submit ourselves to a miserable third way of economic liberalism and government as administration In this combative major work philosophical sharpshooter Slavoj Zizek takes on the reigning ideology with a plea that we should re appropriate several lost causes and look for the kernel of truth in the totalitarian politics of the past Examining Heidegger's seduction by fascism and Foucault's flirtation with the Iranian Revolution he suggests that these were the right steps in the wrong direction He argues that while the revolutionary terror of Robespierre Mao and the Bolsheviks ended in historic failure and monstrosity this is not the whole story There is in fact a redemptive moment that gets lost in the outright liberal democratic rejection of revolutionary authoritarianism and the valorization of soft consensual decentralized politics Zizek claims that particularly in light of the forthcoming ecological crisis we should reinvent revolutionary terror and the dictatorship of the proletariat in the struggle for universal emancipation We need to courageously accept the return to this Cause even if we court the risk of a catastrophic disaster In the words of Samuel Beckett Try again Fail again Fail better The Big Red One James Scott
