Successful Program Review Robert J. Barak, Barbara E. Breier, 1990-05-11 *Successful Program Review* outlines the key purposes and scope of program review details the initial stages of developing a program review plan and describes the nuts and bolts of conducting a review the use of consultants and a variety of methods for collecting and analyzing data

Exemplars of Assessment in Higher Education, Volume Two Jane Marie Souza, Tara A. Rose, 2023-11-09 In this second volume of the successful *Exemplars of Assessment in Higher Education* editors Souza and Rose share examples of assessment practice from over fifteen distinct and diverse Higher Education Institutions including international contributions Building upon the work of the first volume the case studies in this book reflect the changes in assessment and higher education in the post Covid education environment The

institutions that appear in this book were chosen for having an effective assessment approach in one or more of the following areas: career readiness, distance education, diversity, equity, and inclusion, or general education. Each part of the book discusses one of these four areas with chapters that feature real-life examples from the educators who teach at the college or university.

Featuring a Foreword by AACU President Lynn Pasquerella, the work highlighted in this book is also aligned with AACU's Valid Assessment of Learning in Undergraduate Education (VALUE) initiative to help educators make the best decisions about measuring student learning. This book is ideal for university educators and assessment practitioners looking to diversify and enhance their assessment practices.

A Co-Publication with AACU: *Taking Ownership of Accreditation* by Amy Driscoll and Diane Cordero De Noriega, 2023-07-03. This book demonstrates how a participatory approach to assessment and accreditation in their new forms creates a synergy for learner-centered education. It is a guide to approaching the accreditation process from a campus-wide perspective of ownership, illustrated by rich descriptions of how faculty, students, and administrators at California State University Monterey Bay engaged with and successfully focused their accreditation processes on the improvement of their practices. The approach that the authors describe was driven by a commitment to go beyond satisfying the accreditation expectations so as to promote ongoing and long-term improvement of student learning. It also reflects the shift of responsibility for assessment within institutions from a designated office to individual faculty and staff, entire departments, and the campus as a whole. The authors document strategies that are practical, ready to use, or adapt that are appropriate for all campuses. They also provide guidelines for the documentation process that accreditation demands. They demonstrate how they reduced traditional resistance to assessment by emphasizing its use for the improvement of student learning, helping faculty with their own teaching, and creating frameworks for continuing improvements that are valued by faculty. The authors emphasize the need for every institution to take into account its unique mission, vision, and core values and to recognize the importance of individual departmental cultures. Although their accreditation triggered CSUMB's engagement with assessment, the authors discuss other opportunities for jump-starting the process.
