

SMART GOAL

Set a goal with the SMART structure to set yourself up for success!

S	Specific What exactly do I want to accomplish? (Specific and narrow).	Example: I will lose 5 pounds
M	Measurable How will I tell that it is accomplished? (Evidence that prove the achievement).	Example: my weight will be 145 lbs
A	Achievable Actions to take to achieve the goal. (Make sure the goal could be reasonably achieved).	Example: eating 1700 calories per day and walking 40 minutes per day
R	Relevant Does this seem worthwhile? (The goal should be important to you and align with your long term objectives).	Example: it will help me to regain confidence
T	Time-based When should the goal be accomplished? (Realistic end-date for the goal achievement).	Example: by the 31st of December

Fully formulated SMART goal: _____

Example: I will lose 5 pounds by the 31st of December by eating 1700 calories per day and walking 40 minutes per day which will make my weight 145 lbs and will help me to regain confidence

Exclusion in Smart Cities Izabela Jonek-Kowalska, Radosław Wolniak, 2025-03-18 Smart Cities are fascinating but they also have a dark side that little is said or written about One issue is the possibility of generating various types of exclusion For this reason this book will develop principles for assessing the inclusiveness of Smart Cities and outline strategies for strengthening urban resistance to exclusion The book will consider the essence scale and types of exclusion and include analysis of inclusiveness in practice in the assessment and activities of Smart Cities The research assesses Smart City literature with particular emphasis on criticism of the Smart City concept and exclusion generated in smart urban structures critically analyses the principles and indicators used in international inclusive Smart City rankings highlights case studies on best practices for preventing exclusions in Smart Cities and uses trend analysis to assess the scale and intensity of exclusion threats This book can be used as a compendium of knowledge about exclusions in Smart Cities by both researchers and students as well as all urban stakeholders in particular city decision makers Smart Structures and Materials ,2004

The Smart Set ,1919 *The Smart Growth Manual* Andres Duany, Jeff Speck, Mike Lydon, 2004-01-22 Everyone is calling for smart growth but what exactly is it In *The Smart Growth Manual* two leading city planners provide a thorough answer From the expanse of the metropolis to the detail of the window box they address the pressing challenges of urban development with easy to follow advice and broad array of best practices With their landmark book *Suburban Nation* Andres Duany and Jeff Speck set forth more clearly than anyone has done in our time the elements of good town planning *The New Yorker* With this long awaited companion volume the authors have organized the latest contributions of new urbanism green design and healthy communities into a comprehensive handbook fully illustrated with the built work of the nation s leading practitioners *The Smart Growth Manual* is an indispensable guide to city planning This kind of progressive development is the only way to fully restore our economic strength and create new jobs new industries and a renewed ability to compete in the first rank of world economies Gavin Newsom Mayor of San Francisco Authors Andres Duany Jeff Speck and Mike Lydon

have created *The Smart Growth Manual* a resource which not only explains the overarching ideals of smart growth but a manual that takes the time to show smart growth principles at each geographic scale region neighborhood street building I highly recommend it as a part of any community participant s or urban planner s desktop references LocalPlan org Planetizen Top 10 Books 2010 On the ninth annual list of the ten best books in urban planning design and development The goal of *The Smart Growth Manual* is clear from page 1 to create a guidebook for smart growth following the pattern of the Charter for New Urbanism Duany Speck and Lydon have achieved that in spades the Charter is included in the appendix in case we missed the connection It even clears up some of the architectural arguments that attach themselves to New Urbanists such as this segment of Section 14 1 Regional Design While new buildings should not be compelled to mimic their historic predecessors designers should pay attention to local practices regarding materials and colors roof pitches eave lengths window to wall ratios and the socially significant relationship of buildings to their site and the street these have usually evolved in intelligent response to local conditions In addition to making the old traditional vs modern argument irrelevant Duany Speck and Lydon have truly managed to boil down the best parts of current practices into a highly readable portable book
