Of Caves and Caving John E. Gillett, 2002-05-08 What is caving Caving is fun Caving is in the darkness Caving is illuminating Caving is dangerous Caving is a minority sport for idiots This book comes tantalizingly close to explaining the reasons why apparently sane rational individuals are driven by some mysterious force to take seemingly senseless risks in the exploration of caves and underground caving systems The author's exciting journey takes us through a series of adventures
