   Adjunct Faculty in Online Higher Education: Best Practices for Teaching Adult Learners Tarbutton, Tanya McGlashing,Doyle, Lori Beth,2024-01-22 Adjunct Faculty in Online Higher Education Best Practices for Teaching Adult Learners is an essential handbook that delves into the pivotal role of adjunct faculty instructors in the booming realm of online higher education with a specific focus on adult learners As the demand for online education continues to soar administrators program directors and adjunct faculty instructors alike are presented with unique challenges and opportunities This comprehensive guidebook provides a wealth of knowledge and best practices for adjunct faculty instructors seeking to excel in online teaching roles With a keen understanding of the competitive nature of the field this book equips instructors with valuable insights that will set them apart in the ever expanding landscape of higher education University administrators and program directors will also find immense value in the book s content which explores strategies for providing professional development to adjunct faculty and designing effective evaluations to support continuous improvement Recognizing the paramount importance of the student experience the book emphasizes the crucial role played by adjunct faculty in representing their respective institutions Covering a wide range of topics from the historical context of adult learners to the challenges associated with being an adjunct instructor this handbook serves as a comprehensive guide for both aspiring and experienced adjunct faculty members It offers practical advice on curriculum design personnel development and evaluation methods empowering administrators and directors alike to make informed decisions in hiring and supporting adjunct faculty instructors   *Online Science Learning: Best Practices and Technologies* Downing, Kevin,Holtz, Jennifer,2008-05-31 The continued growth in general studies and liberal arts and science programs online has led to a rise in the number of students whose science learning experiences are web based However little is known about what is actually going on in web based science courses at the level of the disciplines within liberal arts and sciences or the corresponding course design features Online Science Learning Best Practices and Technologies reviews trends and efforts in web based science instruction and evaluates contemporary philosophies and pedagogies of online science instruction This title on an emergent and vital area of education clearly demonstrates how to enrich the academic character and quality of web based science instruction   Facets of Virtual Environments Fritz Lehmann-Grube,Jan Sablatnig,2010-02-14 In recent years the popularity of virtual worlds has increased significantly and they have consequently come under closer academic scrutiny Papers about virtual worlds are typically published at conferences or in journals that specialize in something tirely different related to some secondary aspect of the research Thus a paper d cussing legal aspects of virtual worlds may be published in a law journal while a psychologist s analysis of situation awareness may appear at a psychology conference The downside of this is that if you publish a virtual worlds paper at an unrelated conference in this manner you are likely to be one of only a handful of attendees working in the area You will not therefore achieve the most important goal of tending

conferences meeting and conversing with like minded colleagues from the academic community of your field of study Virtual worlds touch on many well established themes in other areas of science Researchers from all these fields will therefore be looking at this new interesting and growing field However to do effective research related to these complex constructs researchers need to take into account many of the other facets from other fields that impact virtual worlds Only by being familiar with and paying attention to all these different aspects can virtual worlds be properly understood **Project Management Approaches for Online Learning Design** Kurubacak, Gulsun,Yuzer, T. Volkan,2013-01-31 Developments in online learning and its design are areas that continue to grow in order to enhance students learning environments and experiences However in the implementation of new technologies the importance of properly and fairly overseeing these courses is often undervalued Project Management Approaches for Online Learning Design boldly focuses on this unique area of virtual learning by adopting a theoretical point of view and discussing the planning organizing securing and managing of resources to bring about the successful completion of online learning goals and objectives This reference source brings together project management based approaches with an exclusive focus on each online learning design project
