Ayurveda Kapha is characterized by Earth and Water elements making it the heaviest and most stable of the three doshas. In the body, Kapha is liable for solidity and all structures as well as the right volume of body fluids. It regulates the weight, growth, lubrication of the joints and lungs, and the creation of all seven tissues: nutrient fluids, blood, muscles, bones, marrow, and reproductive tissue. Protection is the primary feature of Kapha. Kapha types are calm, rooted, and genuine when they are in harmony. If Kaphas get out of balance, they binge eat and under exercise, triggering weight gain and diabetes. Stubbornness and commitment can become a matter for the emotional body.
