A New Paradigm in Marketing - The Service Dominant Logic: Academia's Reactions to the Theory of Vargo and Lusch Christina Weißenfels, 2014-04 For virtually all of the 20th century the paradigm in marketing was founded on early economic thoughts making goods and exchanges the focal point of economic research and practice In the 1980s and 1990s scholars called for a paradigm shift but did not deliver clear directives on how to move forward It was not before 2004 when Stephen L Vargo and Robert F Lusch published their award winning article Evolving to a New Dominant Logic for Marketing in the Journal of Marketing dealing with a potentially new paradigm for marketing The publication has caused a lot of discussions crowned by a collection of essays from more than 50 scholars in 2006 This book aims at looking into the reactions and discussions regarding the proposed service dominant logic in more detail So far no comprehensive overview of the existing literature has yet been made This book will introduce the basic ideas of the service dominant logic followed by a detailed state of literature The last part of the book will examine whether the concepts of a service dominant logic display similarities with concepts of B2B marketing and whether they could successfully be adopted in B2B markets

The Service-Dominant Logic of Marketing Robert F. Lusch, Stephen L. Vargo, 2014-12-18 Expanding on the editors award winning article Evolving to a New Dominant Logic for Marketing this book presents a challenging new paradigm for the marketing discipline This new paradigm is service oriented customer oriented relationship focused and knowledge based and places marketing once viewed as a support function central to overall business strategy Service dominant logic defines service as the application of competencies for the benefit of another entity and sees mutual service provision rather than the exchange of goods as the proper subject of marketing It moves the orientation of marketing from a market to philosophy where customers are promoted to targeted and captured to a market with philosophy where the customer and supply chain partners are collaborators in the entire marketing process The editors elaborate on this model through an historical analysis clarification and extension of service dominant logic and distinguished marketing thinkers then provide further insight and commentary The result is a more comprehensive and inclusive marketing theory that will challenge both current thinking and marketing practice
