The Generativity Advantage Mohammad Keyhani, 2025-08-04 How can businesses systematically profit from innovations they never predicted created by people they've never met solving problems they didn't even know existed While many businesses celebrate user innovation few take their user innovators seriously enough as entrepreneurs The Generativity Advantage brings powerful ideas from technology generativity theory into the domains of business strategy and entrepreneurship It explores ways to specifically design products to spur user innovation product generativity and to build dynamic markets for those innovations market generativity in order to achieve a strategic generativity advantage the ability to systematically profit from the unpredicted innovations of others on a massive scale Through numerous case studies from Apple and Google to emerging leaders in generative AI and no code technology like OpenAI Anthropic Bubble Notion Coda and Webflow it shows how product generativity and market generativity can together create a powerful flywheel effect and sustained competitive advantage Yet the book also demonstrates that achieving a generativity advantage is neither easy nor trivial the world's leading companies struggle to implement these ideas effectively The book's key lesson is to help your user innovators succeed as serious entrepreneurs and you will benefit generously in turn Whether you're building a digital platform a marketplace or any product that allows users to innovate this book provides the conceptual tools and practical strategies needed to transform your platform into an engine of continuous innovation Learn how to move beyond celebrating user creativity to systematically enabling and profiting from user entrepreneurship creating value at scales previously unimaginable

Gaming and Extremism Linda Schlegel, Rachel Kowert, 2024-03-21 Charting the increase in the use of games for the dissemination of extremist propaganda radicalization recruitment and mobilization this book examines the gamification of extremism Editors Linda Schlegel and Rachel Kowert bring together a range of insights from world leading

experts in the field to provide the first comprehensive overview of gaming and extremism. The potential nexus between gaming and extremism has become a key area of concern for researchers, policymakers, and practitioners seeking to prevent and counter radicalization, and this book offers insights into key trends and debates, future directions, and potential prevention efforts. This includes the exploration of how games and game adjacent spaces such as Discord, Twitch, Steam, and DLive are being leveraged by extremists for the purposes of radicalization, recruitment, and mobilization. Additionally, the book presents the latest counterterrorism techniques, surveys promising preventing/countering violent extremism (P-CVE) measures currently being utilized in the gaming sphere, and examines the ongoing challenges, controversies, and current gaps in knowledge in the field. This text will be of interest to students and scholars of gaming and gaming culture, as well as an essential resource for researchers and practitioners working in prevention and counter extremism, professionals working at gaming related tech companies, and policymakers.
