Garthoff addresses questions surrounding the Eisenhower Administration's foreign policy and military estimates of the Soviet Union Fortnightly Summary of Soviet Intentions: 'Crystal Gazer' (FO1093-490), 1949 A file of correspondence and memoranda relating to a fortnightly British summary of Soviet intentions codenamed Crystal Gazer Subjects discussed in this file include instructions for the writing of the summaries including advice on the concealment of secret sources the secure distribution of Crystal Gazer including to the Prime Minister an indoctrination form for those authorised to receive Crystal Gazer reports after receiving appropriate security vetting and arrangements to minimise the risk of information leaks to the Soviets **The Intelligence Intellectuals** Peter C. Grace, 2026-01-05 The untold story of how America's brightest academic minds revolutionized intelligence analysis at the CIA In the early days of the Cold War the United States faced a crisis in intelligence analysis A series of intelligence failures in 1949 and 1950 including the failure to warn about the North Korean invasion of South Korea made it clear that gut instinct and traditional practices were no longer sufficient for intelligence analysis in the nuclear age The new director of the Central Intelligence Agency Walter Bedell Smith had a mandate to reform it Based on new archival research in declassified documents and the participants personal papers **The Intelligence Intellectuals** reveals the neglected history of how America's brightest academic minds were recruited by the CIA to revolutionize intelligence analysis during this critical period Peter C. Grace describes how the scientifically sound analysis methods that they introduced significantly helped the United States gain an advantage in the Cold War and these new analysts legitimized the role of the recently created CIA in the national security community Grace demonstrates how these professors such as William Langer from Harvard Sherman Kent from Yale and Max Millikan from MIT developed systematic approaches to intelligence analysis that shaped the CIA's methodology for decades to come Readers interested in the history of the Cold War and in intelligence scholars of intelligence studies Cold War historians and intelligence practitioners seeking to understand their craft's foundations will all value this insightful history about the place of social science in national security Intelligence Mark M. Edelstein, 2017-09-15 How do established powers react to growing competitors The United States currently faces a dilemma with regard to China and others over whether to embrace competition and thus substantial present day costs or collaborate with its rivals to garner short term gains while letting them become more powerful This problem lends considerable urgency to the lessons to be learned from *Over the Horizon* David M Edelstein analyzes past rising powers in his search for answers that point the way forward for the United States as it strives to maintain control over its competitors Edelstein focuses on the time horizons of political leaders and the effects of long term uncertainty on decision making He notes how state leaders tend to procrastinate when dealing with long term threats hoping instead to profit from short term cooperation and are reluctant to act precipitously in an uncertain environment To test his novel theory Edelstein uses lessons learned from history's great powers late nineteenth century Germany the United States at the turn of the twentieth century interwar Germany and the Soviet Union at the origins of the Cold War *Over the Horizon* demonstrates that cooperation between declining and rising powers is more common than we might think although declining states may later regret having given upstarts time to mature into true threats *Analyzing Soviet Intentions* James M. Soviet Union Mary E. Glantz, 2005 Throughout his presidency Franklin Roosevelt was determined to pursue a peaceful accommodation with an increasingly powerful Soviet Union an inclination reinforced by the onset of world war Roosevelt knew that defeating the Axis powers would require major contributions by the Soviets and their Red Army and so despite his misgivings about Stalin's expansionist motives he pushed for friendlier relations Yet almost from the moment he was inaugurated lower level officials challenged FDR's ability to carry out this policy Mary Glantz analyzes tensions shaping the policy stance of the United States toward the Soviet Union before during and immediately after World War II Focusing on the conflicts between a president who sought close relations between the two nations and the diplomatic and military officers who opposed them she shows how these career officers were able to resist and shape presidential policy and how their

critical views helped shape the parameters of the subsequent Cold War Venturing into the largely uncharted waters of bureaucratic politics Glantz examines overlooked aspects of wartime relations between Washington and Moscow to highlight the roles played by U S personnel in the U S S R in formulating and implementing policies governing the American Soviet relationship She takes readers into the American embassy in Moscow to show how individuals like Ambassadors Joseph Davies Lawrence Steinhardt and Averell Harriman and U S military attaches like Joseph Michela influenced policy and reveals how private resistance sometimes turned into public dispute She also presents new material on the controversial military attach lend lease director Phillip Faymonville a largely neglected officer who understood the Soviet system and supported Roosevelt s policy Deftly combining military with diplomatic history Glantz traces these philosophical and policy battles to show how difficult it was for even a highly popular president like Roosevelt to overcome such entrenched and determined opposition Although he reorganized federal offices and appointed ambassadors who shared his views in the end he was unable to outlast his bureaucratic opponents or change their minds With his death anti Soviet factions rushed into the policymaking vacuum to become the primary architects of Truman s Cold War containment policy A case study in foreign relations high level policymaking and civil military relations FDR and the Soviet Union enlarges our understanding of the ideologies and events that set the stage for the Cold War It adds a new dimension to our understanding of Soviet American relations as it sheds new light on the surprising power of those in low places Soviet Intentions and Capabilities with Respect to Germany and Their Most Probable Courses of Action in the Next Six Months United States. Department of the Army. General Staff. Intelligence Division,1950 The Inter-relationship Between Soviet Military Power and Soviet Intentions Toward Europe Foreign Affairs Research Institute,1976 *Bernard Brodie and the Foundations of American Nuclear Strategy* Barry Howard Steiner,1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom Congressional Record United States. Congress,1970 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **United States/Soviet Military Balance** John M. Baucom,1992 Most people think Star Wars began with the ideas of Ronald Reagan but its roots reach decades further back In this first scholarly account of the origins of the Strategic Defense Initiative SDI historian Don Baucom traces these roots back to the dawn of the missile age in 1944 He finds SDI emerging

after a period of nearly 40 years from forces generated by technological developments changing strategic conditions and the collapse of the SALT arms control negotiations of the 1970s
