The Soviet Study of International Relations, 1968-1982 Allen C. Lynch, 1984 Soviet Perspectives on International Relations, 1956-1967 William Zimmerman, 2015-03-08 Serious debates and discussions on world politics in Russian journals and books have greatly increased since 1956 resulting in a steadily changing appraisal of the world political situation by the Russians Professor Zimmerman studies that changing appraisal He describes Soviet international relations perspectives during Khrushchev's years in power and the three years following He uncovers the answers Soviet commentators implicitly or explicitly give to such questions as Who in the Soviet view are the main actors in international politics and what does identifying them suggest about the Soviet perspective In the Soviet analysis what is the global distribution of power How do Soviet analysts characterize the capabilities motives and decision making process of the United States Contents I Introduction II The Emergence of International Relations as a Discipline III The Actors IV The Hierarchy V The Distribution of Power VI United States Foreign Policy from the Soviet Perspective VII The Balance of Power as System and Policy VIII Post Imperialism and the Transformation of Soviet Foreign Policy Originally published in 1969 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Beyond Sovietology Christer Pursiainen, 1998 The Soviet Theory of International Relations Margot Light, 1988 Soviet policy makers and international relations specialists believe that Soviet foreign policy is scientific because it is based on a Marxist Leninist theory of international relations This is a study of the historical origins and the content of that theory Rethinking Post-Cold War Russian-Latin American Relations Vladimir Rouvinski, Victor Jeifets, Víktor Lazarevič Hejfec, 2022 Today there is plenty of evidence that Russia has become a prominent external actor in Latin America and the Caribbean Yet few books have attempted to better understand the reasons behind Russia's return and Moscow's continuous engagement in the region In order to fill the gap this volume offers the first interdisciplinary study of Russian Latin American relations after the end of the Cold War Across 16 chapters leading experts from Russia Europe the United States and Latin America collectively re-examine the Soviet legacy to reveal the conditions in which Russia operates today and identify the key trends of contemporary Russian relations with this part of the world The book then moves on to provide a detailed case study analysis of Russia's bilateral relations with Venezuela Cuba Mexico Brazil Argentina and Colombia identifying the most critical dimensions of Russian engagement Rethinking Post Cold War Russian Latin American Relations allows readers to identify the fundamental driving forces of Russia's renewed commitment to the area its strategies and experiences The book

International Relations: Marx(ism) a ghost unwilling to disappear? Jan Lüdert, 2008-07-01 Essay from the year 2006 in the subject Politics General and Theories of International Politics grade 1.0 The Australian National University language English abstract In the midst of the turbulent political and economic transformation during 1989 Francis Fukuyama declared the end of history in his famous article intending to seal the coffin of communist ideology once and for all declaring the western camp as the winner of the cold war and more importantly of liberal capitalism over communism 1 However a peculiar question remains for students of International Relations 2 Is it still worth studying Marxist theory today since the former communist Soviet Union and its satellites no longer practice a certain and often incoherent version of Marxist ideology This paper does not attempt to advocate a utopian classless society in conjunction with radical and totalitarian outgrowths that had been

developed during the 20th century from Stalinist gulags to the Maoist Cultural Revolution Despite this this paper aims to show the merits of Marxist theory especially the concept of historical materialism and how in at least three respects it adds to the study of International Relations
