Spatial Relations Poems

Ivor Armstrong Richards

Spatial Relations Poems:

Spatial Relations Leonora Smith, 2001 Readable and inviting *Spatial Relations* reminds us of the power in everyday places and objects and the mysterious space between them Like the fold up shapes in old junior high school aptitude tests they are both concrete and bewildering The characters and personae in these poems including mythologized versions of Smith s parents yearn for big emotions for high living for what they have tasted and touched loved and lost This is a book that will invite you to remember imagine and laugh more often than you might expect The poems in this collection have a rueful lively sense of humor an underlying impatience with social inequity and a willingness to imagine that things might be playing themselves out differently in some parallel universe Like anyone who has narrowly escaped a life of domestic confinement these poems have a wild streak

Iconic Investigations Lars Elleström, Olga Fischer, Christina Ljungberg, 2013

The contributions to *Iconic Investigations* deal with linguistic or literary aspects of language While some studies analyze the cognitive structures of language others pay close attention to the sounds of spoken language and the visual characteristics of written language In addition this volume also contains studies of media types such as music and visual images that are integrated into the overall project to deepen the understanding of iconicity the creation of meaning by way of similarity relations Iconicity is a fundamental but relatively unexplored part of signification in language and other media types During the last decades the study of iconicity has emerged as a vital research area with far reaching interdisciplinary scope and the volume should be of interest for students and researchers interested in scholarly fields such as semiotics cognitive linguistics conceptual metaphor studies poetry intermediality and multimodality
