You will learn the basic fundamentals of SAP SD with examples based on a case study approach. Using a fictional company scenario, you will learn the fundamentals of the order-to-cash process and key flow from sales order delivery to billing document. Review how master data is connected to sales orders and pricing. Understand sales order processing, including item categories, availability checking, dates, shipping texts, and more. Walk through delivery processing and billing. Familiarize yourself with two of the major SD pre-sales documents: contracts and quotations. Delve into the post-sales processes, including returns, service, and debit and credit memos. Look at transactional list reports and analytical reports.
