The Postmodern Archipelago:

The Postmodern Archipelago Michael Swanwick, 1997-11-01 **Supplanting the Postmodern** David Rudrum, Nicholas Stavris, 2015-09-24 An anthology of key writings on the so called demise of postmodernism and the debates around what might replace it *Badiou's Ontology of the Present* Michael Hauser, 2025-11-13 Emerging from the twin shadows of neoliberalism and postmodernism Michael Hauser paints our current historical moment as an interregnum born of but departing from those two towering modes of late 20th century culture Seen in this light the preoccupation of populism identity politics hybrid wars and other contemporary phenomena can be seen as the result of the disintegration of neoliberal agendas and postmodernist sensibilities Drawing together a vast range of thinkers and theoretical models from Gramsci to Jameson Hauser traces the reasons for the decline and demise of the grand narratives of the twentieth century and the ideologies that replaced them His explanation of the foundational epicyclic and disintegrative elliptical stages of political movements then lays the ground for a deep engagement with Alain Badiou understanding his transitory ontology as a philosophical response to our interregnum By expanding and unpicking Badiou's thoughts on mathematics politics art love and the conditions of doing philosophy we can imagine a point beyond the present moment in history *The Repeating Island* Antonio Benitez-Rojo, 1997-01-10 In this second edition of *The Repeating Island* Antonio Benitez Rojo a master of the historical novel short story and critical essay continues to confront the legacy and myths of colonialism This co winner of the 1993 MLA Katherine Singer Kovacs Prize has been expanded to include three entirely new chapters that add a Lacanian perspective and a view of the carnivalesque to an already brilliant interpretive study of Caribbean culture As he did in the first edition Benitez Rojo redefines the Caribbean by drawing on history economics sociology cultural anthropology psychoanalysis literary theory and nonlinear mathematics His point of departure is chaos theory which holds that order and disorder are not the antithesis of each other in nature but function as mutually generative phenomena Benitez Rojo argues that within the apparent disorder of the Caribbean the area's discontinuous landmasses its different colonial histories ethnic groups languages traditions and politics there emerges an island of paradoxes that repeats itself and gives shape to an unexpected and complex sociocultural archipelago Benitez Rojo illustrates this unique form of identity with powerful readings of texts by Las Casas Guill n Carpentier Garc a M rquez Walcott Harris Buitrago and Rodr guez Juli *Ethics and Environmental Policy* Frederick Ferré, Peter Hartel, 1994 In this collection of essays leading environmentalists and philosophers explore the relationship between environmental ethics and policy both in theory and practice The first section of the book focuses on four approaches to change in ethical theory ecological science feminist metaphysics Chinese philosophy and holistic postmodern technology In subsequent sections the contributors emphasize the need for nontraditional solutions and attempt to expand awareness of the most pressing practical problems Among the topics discussed are the possibilities of real international cooperation the inequitable but economically intractable issue of global gasses the political and ethical

challenges of city planning and the growing evidence of fundamental inappropriateness in treating land as legal private property This volume is based on essays presented in 1992 at the Second International Conference on Ethics and Environmental Policy The conference was held in response to the increasing need for a new ethics that would counter the traditional human centered dominantly individualistic approach of the industrial world toward the environment

Minima Memoria Claire Nouvet, Zrinka Stahuljak, Kent Still, 2007 *Minima Memoria* attests to the impact of the works of Jean Fran ois Lyotard one of the most influential French philosophers of the twentieth century and the continuing effects of these works across a wide array of fields philosophy literature political theory gender theory aesthetics and psychoanalysis Particular attention is paid to Lyotard s repeated warnings regarding the way in which the complexity of events can be occluded in the very attempt to represent them Indeed through the contributors careful and critical analysis Lyotard s complex intellectual trajectory all the way up to the posthumously published works *The Confession of Augustine* and *The Misery of Philosophy* is traced in different and often conflicting manners which bring out the different currents that traverse his writings and the sites of tension that such terms as different affect and infancy mark What emerges is not a grand narrative that would organize Lyotard s life and work around one unifying idea but multifaceted approaches that extend in new and unforeseen directions
