Tiffany Windows:

Tiffany Windows Alastair Duncan, 1980 Windows were the major emphasis of Louis Comfort Tiffany's work. Yet today most Tiffany windows have never been seen by the public. Alastair Duncan has tracked down virtually every window still extant and has documented examples that have disappeared or been destroyed. Along with providing photographs of over 200 windows, more than half in color, Duncan describes how the glass was made and the windows constructed. Tiffany's designers and the workings of the Window Department, his critics and international exhibitions, window themes, signatures, chronology, and a complete list of all Tiffany windows. [Tiffany Windows Stained Glass Pattern Book](#) Connie Clough Eaton, 1997-01-01 Rich treasury of 60 lovely, royalty-free designs adapted from authentic Tiffany creations: landscape and memorial windows, panels, transoms, skylights, glass screens, and other stained glass projects. Patterns for Pumpkins and Beets, The Deep Sea, Sir Galahad, Sunset, Peace, many others. Also practical for varied craft and coloring activities. *Radiance and Symbolism in Modern Stained Glass* Liana De Girolami Cheney, 2016-02-08 This book focuses on the aesthetic, symbolic, and cultural concepts of radiance and beauty in stained glass in modern art, global exchanges between stained glass artists in Europe and the Americas, and the transformation of stained glass from religious decoration to secular material culture. Unique features of the book include its geographic breadth encompassing England, France, Italy, USA, and Mexico, and its inclusion of American female glassmakers. Essays consider how stained glass became an art form during this time and show how the narrative for the figurative design drew from the Bible, mythology, history, literature, and the symbolism of the time, including popular culture such as ecology and materiality. Written for students and the general public interested in the humanities, literature, history, art history, and new media and popular culture, this book examines the visual beauty and symbolism of stained glass windows in European and American cultures during the late nineteenth and early twentieth centuries, the modern era. [Louis Comfort Tiffany and Laurelton Hall](#) Alice Cooney Frelinghuysen, Elizabeth Hutchinson, 2006 Laurelton Hall, Louis Comfort Tiffany's American 1848-1933 extraordinary country estate in Oyster Bay, New York, completed in 1905, was the epitome of Tiffany's achievement and in many ways defined this multifaceted artist. Tiffany designed every aspect of the project, inside and out, creating a total aesthetic environment. This publication accompanies an exhibition that reveals Tiffany's most personal art, bringing into focus this remarkable artist who lavished as much care and creativity on the design and furnishing of his home and gardens as he did on all the wide-ranging media in which he worked. Although the house tragically burned to the ground in 1957, many of its surviving architectural elements and interior characteristics are included in this volume. Also featured are Tiffany's personal collections of his own work: breathtaking stained glass windows, paintings, glass and ceramic vases, as well as the artist's collections of Japanese, Chinese, and Native American works of art.
