Tribes: An International Hockey History Darril Fosty,George Robert Fosty,2020-07-30 For much of the nineteenth century European militarists had channeled their spirit and energy into sports in hopes of creating a training ground for warriors This new concept and logic fed upon the ideas of racial purity and warrior cults It was a belief system well in keeping with the imperialism of the times In the 1890s this form of ideology and practice reached new levels as athletes began to compete under the banners of nations Following WWI and as a result of the worldwide growth and popularity of the Olympics the game of ice hockey took on a more complex form as teams representing countries began to compete in international play Cultural differences political ideologies and blind nationalism supplanted sportsmanship Pride and emotion replaced reason From North America to Nazi Germany and on to the gates of Moscow what were designed to be hockey games of goodwill became battles The Great War was over the longest undeclared war of nations was about to begin The follow up to the best selling book *Black Ice* *The Lost History of the Colored Hockey League* of the

Johnstone,2006-08-01 It didn't matter that the warrant was years old or that Smoke Jensen has been cleared of all charges A Texas bounty hunter named Bill Pike believed he could still collect at USD 10 000 reward for killing Jensen and he intended to do just that But when Pike and his men came calling Jensen was nowhere to be found So they took the next best thing Smoke's woman left behind a ransom note and headed up into the Rocky Mountains The Falls B. Michael Radburn,2016-07-27 A week of despair a century of evil Damaged but not yet broken park ranger Taylor Bridges believes his ghosts are in the past until a raging forest fire in an isolated canyon of The Falls lays bare the remains of a young woman and a decade old killing ground After the police enlist Taylor in their investigation the evidence bizarrely points to a deranged preacher who reigned over The Falls a century ago But when a crucial witness and a policewoman disappear it's clear that a disciple of The Falls dark history is on the loose **The Viking Cup** LeRoy Johnson,2021-10-13 How does a small college in a rural Alberta city of just over 12 000 people become host to the finest hockey players in the world Now a part of the University of Alberta Camrose Lutheran College was challenged to compete against larger city colleges Through persistence in following a vision the school and the community embraced the potential of the Viking Cup in 1980 opening their doors to the world of hockey through this unique international exchange program Outside the Cold War was raging but barriers seemed to melt as the love of hockey played on By the time the Cup had its last hurrah in 2006 the NHL had drafted more than 400 players from its ranks The Viking Cup memoirs and stories of the program's founder is a joyful account of an important chapter of Canada's hockey history **Trek of the Mountain Man** William W. Wirth,2000 Air pollution challenges nations sharing common borders to balance economic needs with protecting citizens and the environment across jurisdictions By examining landmark cases on the two borders John Wirth shows how environmental diplomacy citizen action at the grassroots level and the role of science industry and the law converged bringing Canada the United States and Mexico to the threshold of today's continental approaches to pollutant pathways Wirth first examines the famous Trail smelter conflict of 1927 1941 This precedent setting case which pitted U S farmers against the Canadian smelter resulted in the

doctrine that in cases of transborder damage the polluter must pay Although the farmers were modestly compensated and the British Columbia based smelter cooperated to control pollution Wirth reveals the real significance of the decision U S industries shared with the Canadians a common interest to resolve the case in a manner that would allow them to continue to pollute freely across international borders with minimal regulation Wirth then turns to the Gray Triangle confrontations of the 1980s in which the new instruments of the Clean Air Act and cooperative policies developed by the Mexican and U S governments established an entirely new climate for citizen action resulting in the closing of an American smelter in Arizona and the imposition of stricter standards on two Mexican smelters in Sonora Although the Trail precedent favored industry the Gray Triangle resolution signaled that the needs of industry and the public interest were now in better balance Drawing on extensive interviews and previously untapped archives Smelter Smoke in North America provides new analysis of the development of a North American institutional response to continental air pollution It chronicles how industry developed a continental perspective in a shared regional space the mineralized West and how successful efforts of governments and citizens to protect the environment evolved

A West Point Yearling Paul Bernard Malone, 1907 During the period covered by this volume hazing had become a serious menace to the discipline of the Military Academy The efforts on the part of the authorities to suppress the vice met with but little co operation from the cadets who believed that no plebe could be inspired with the proper sense of instantaneous obedience except by the so called system of hazing which had been practiced for many years at the Academy So strong honest and deep seated was this belief that the cadet who opposed it was subject to suspicion as a sycophant and boot lick Among the opponents of the system however was Douglas Atwell president of the yearling class a recognized and stalwart leader among his comrades In these pages an effort is made to trace his struggle against the growing opposition of his class in a word to follow out the system of hazing to its logical consequences The early experiences of our hero had admirably fitted him for the crisis with which he soon found himself confronted As a poor country boy on a lonely farm he had acquired that hard horse sense which recognizes the fundamental and rejects convenient theory as a soldier in the U S Army in the Philippines he had trained his fearless nature to ignore consequences and as a plebe at West Point he had seen the folly of the system the injustice of the code and now with his whole heart he resolved to oppose many of his classmates Introduction United Empire , 1927
