Zuni and the Courts E. Richard Hart, 1995 Three decades ago years after most tribes had filed land claims the Zuni initiated legal battles related to aboriginal claims rights and use that few experts thought they could win Yet by 1991 they had achieved three major victories In the first case the Zuni sued the United States seeking payment for aboriginal territorial lands taken without adequate compensation In the second also against the United States the tribe sought compensation for environmental damages to Zuni trust lands caused by the U S Government and by private industry where the federal government should have provided protection And in the third the U S government sued a private rancher on the Zuni s behalf to establish an easement protecting an ancient religious trail Providing a new overview of these cases and Zuni history Richard Hart has gathered together essays written by many of those who testified for the Zuni historians archaeologists anthropologists and scientist as well as commentary from the tribe s lawyers The authors simplify the complex nature of the testimony making it accessible to a wide audience They cover such diverse but significant issues as Spanish law and land grants tribal aboriginal title the Navajo Wars U S territorial policy deforestation erosion geomorphology dendrochronology environmental history anthropology archaeology education folklore oral history and religion Tying together current events with cultural and legal history Zuni and the Courts provides not only expert observations on how and why the Zuni succeeded but offers insight into how similar cases can be fought and won Religion and American Culture ,1994 **America's 400th Anniversary, 1607-2007** ,2007 **The Epworth Herald** ,1905 Swan People Robin Ridington, 1978

Geography and Genealogy Dr Jeanne Kay Guelke, Professor Dallen J Timothy, 2012-11-28 Genealogy has become a widely popular pursuit as millions of people now research their family history trace their forebears attend family reunions and travel to ancestral home sites Geographers have much to contribute to the serious study of the family history phenomenon Land records maps and even GIS are increasingly used by genealogical investigators As a cultural practice it encompasses peoples emotional attachments to ancestral places and is widely manifest on the ground as personal heritage travel Family history research also has significant potential to challenge accepted geographical views of migration ethnicity socio economic class and place based identities This volume is possibly the first ever book to address the geographical and scholarly aspects of this increasingly popular social phenomenon It highlights tools and information sources used by geographers and their application to family history research Furthermore it examines family history as a socio cultural practice including the activities of tourism archival research and DNA testing East Bay Trails David
