Transfer Of Knowledge In Economic Decision Making:

Transfer of Knowledge in Economic Decision Making Daniel John Zizzo,2005-03-02 The book provides a new perspective on bounded rationality in decision making It aims to move our understanding from mere recognition that bounded rationality exists to an explanation of why it is so In the real world people labor entrepreneurs managers investors stock market traders and policy makers face novel decision problems all the time The key question pertaining to decisions of economic agents then is How do agents transfer their knowledge to a new context **Handbook on the Economic Complexity of Technological Change** Cristiano Antonelli,2011-01-01 This comprehensive and innovative Handbook applies the tools of the economics of complexity to analyse the causes and effects of technological and structural change It grafts the intuitions of the economics of complexity into the tradition of analysis based upon the Schumpeterian and Marshallian legacies The Handbook elaborates the notion of innovation as an emerging property of the organized complexity of an economic system and provides the basic tools to understand the recursive dynamics between the emergence of innovation and the unfolding of organized complexity In so doing it highlights the role of organizational thinking in explaining the introduction of innovations and the dynamics of structural change With a new methodological approach to the economics of technological change this wide ranging volume will become the standard reference for postgraduates academics and practitioners in the fields of evolutionary economics complexity economics and the economics of innovation **The Cognitive Mechanics of Economic Development and Institutional Change** Bertin Martens,2004-02-05 Applying the hot new area of psychological and behavioural economics to notions of economic growth and development Bertin Martens new book is a unique and impressive volume Economics and Sustainability Karl Bruckmeier,2020-11-21 This textbook provides an overview of economic perspectives on sustainability It synthesises economic ecological and interdisciplinary sustainability research and by applying an integrated social ecological and economic framework demonstrates how this research can be improved and implemented in practice Split into three parts the book begins by introducing a range of topics forming the basis of knowledge needed to understand the varying sustainability discourses in economics ecology and interdisciplinary sustainability research Chapters cover the political context of sustainability the history of sustainability in European environmental discourses dating back to the seventeenth century as well as various problems and forms of interdisciplinary knowledge integration and synthesis in the sustainability process Part II reviews the core economic themes relevant to sustainable development including natural resource management environmental economics and ecological economics Also highlighted are often neglected issues such as conflicts disasters and interrelated crises on the way towards sustainability The chapters in Part III discuss the future of the sustainability process They argue for the necessity of overhauling the relationship between science and practice explore failures and the unforeseen difficulties of sustainability transformation and discuss how to enable a long term sustainability process that reaches into the distant future An

innovative resource for a broad range of interdisciplinary programmes on sustainability The book will be an invaluable reference for master and PhD students instructors researchers and practitioners in sustainability governance

Entrepreneurship and Dynamics in the Knowledge Economy Charlie Karlsson, Börje Johansson, Roger Stough, 2006-09-27
The phenomenon of entrepreneurship has attracted researchers from a variety of disciplines and a diverse number of analytical approaches Currently there is a considerable amount of confusion and a variety of conflicting theories which are being used interchangeably and ambiguously In this important new book the authors argue that there are analytically distinct forms of entrepreneurship each of them having an individual logic of their own They highlight the role of individual economic agents with endowments of new knowledge or new combinations of old knowledge as entrepreneurs and thus identify them as dynamic factors in the knowledge economy Overall this book not only provides a contemporary overview of current research in the field but also summarizes the policy conclusions that can be drawn from current research *Ebook:*
