Technical Meeting, 1993 The papers included in this book provide a wide coverage of current thinking and the new concepts which are being developed resulting from the introduction of the T9000 The role and use of the newly developed transputer and associated routing component the C104 is discussed and the use of existing range of transputers in the embedded systems market is also dealt with Transputer Applications Notebook INMOS Limited, 1989 Parallel Processing M. E. C. Hull, Danny Crookes, Patrick J. Sweeney, 1994 A tutorial guide to the INMOS transputer a computer on a chip which has applications in computer graphics robotics databases and more Covers architecture programming and applications plus coverage of the new H1 chip and the various languages used to program transputers including PASCAL C FORTRAN and Occam **Abstract Machine Models for Parallel and Distributed Computing** M. Kara, J. R. Davy, D. Goodeve, 1996 Abstract Machine Models have played a profound though frequently unacknowledged role in the development of modern computing systems They provide a precise definition of vital concepts allow system complexity to be managed by providing appropriate views of the activity under consideration enable reasoning about the correctness and quantitative performance of proposed problem solutions and encourage communication through a common medium of expression Abstract Models in Parallel and Distributed computing have a particularly important role in the development of contemporary systems encapsulating and controlling an inherently high degree of complexity The Parallel and Distributed computing

communities have traditionally considered themselves to be separate. However, there is a significant contemporary interest in both of these communities in a common hardware model: a set of workstation class machines connected by a high performance network. The traditional Parallel Distributed distinction therefore appears under threat.

Transputer Research and Applications 7 North American Transputer Users Group. Conference, 1995. This work comprises the proceedings of the Transputer Research and Applications Conference held in Georgia from October 23rd to October 25th 1994. The conference is sponsored by the North American Transputer Users Group (NATUG).

Transputer Research and Applications 4 North American Transputer Users Group. Conference, North American Transputer Users Group, 1990.

Transputer and Occam Developments World Occam and Transputer User Group. Technical Meeting, 1995. This volume contains papers presented at the 18th meeting of the World Occam and Transputer User Group (Wotug). The papers cover a wide range of transputer and OCCAM related topics such as the porting and development of the OCCAM language, highlighting the need for cross platform implementations of OCCAM compilers, design approaches and applications.

Transputers and Parallel Applications John Hulskamp, David Jones, 1992-11. Presents the proceedings of a Transputer and OCCAM User Group Conference held in Melbourne in November 1992, discussing recent developments in the field of transputers and parallel applications.

Parallel Computing and Transputers D. Arnold, 1994. The broadening of interest in parallel computing and transputers is reflected in this text. Topics covered include concurrent programming, graphics and image processing and robotics and control. It is based on the proceedings of the 6th Australian Transputer and Occam User Group.

Networks, Routers and Transputers P. W. Thompson, P. H. Welch, 1993. The introduction of high speed serial communication links and general purpose VLSI routers offers new opportunities in system design. C104 routers can be used to construct high throughput, low latency interconnection networks for use in telecommunications, parallel computers and electronic systems in general. The T9000 transputer with its integrated communication links can be connected directly to these networks, providing high performance data handling, protocol conversion and network control. This text concentrates on aspects related to scaleable general purpose high performance computing, low latency message passing and parallel processing.

Parallel Computing Jonathan P. Gray, Fazel Naghdy, 1995. The broadening of interest in parallel computing and transputers is reflected in this book. Topics discussed include concurrent programming, graphics and image processing, parallel applications, robotics and control, and software tools. The book also features a collection of abstracts of poster presentations.
