Western Visions:

Virginia's Western Visions Leslie Scott Philyaw, 2004 Once all the world was Virginia an exaggerated truism to be sure but in the early eighteenth century there seemed no limit on the Old Dominion's possibility for growth particularly in the eyes of the state's Tidewater elite Wealthy tobacco barons monopolized thousands of acres along Virginia's frontier and early leadership including William Byrd Thomas Jefferson and George Washington saw the generous possibilities in the expanse of lands to their west In 1705 Virginia planter and historian Robert Beverly confidently foresaw the day when Virginia's settlements would reach the California Sea In Virginia's Western Visions L Scott Philyaw examines the often tumultuous history of Virginia's westward expansion Land the foundation to tobacco cultivation and slavery obsessed early Virginians Land acquisition was also a necessary step in dispossessing Virginia's native inhabitants replacing them with Europeans and Africans The relationship between Virginia's Tidewater elite and the hinterland was never simple however The backcountry's economic potential was undeniable as was the possibility for colonization but elites feared the threat of Native American nations and the western border was consistently a source of unrest For many English colonists the inland wilderness was terrifying and Philyaw argues that attitudes toward the different peoples of the frontier Native Americans French Catholic villagers and German and Ulster Scot immigrants shed light on the cultural and ethnic assumptions of the architects of the American republic By the early nineteenth century the optimism of the Revolutionary generation had faded New western states competed with Virginia for markets settlers and investments and wealthy planters began abandoning the Old Dominion taking their portable slave wealth with them As the War of Independence came to an end an independent Virginia actually began losing territory the war weary and impoverished state could no longer control the western lands its leadership had worked so tirelessly to acquire Leaders now turned to the new national government to accomplish their aims of creating a series of western states that would share Virginia's interests They failed and in the antebellum era Virginia's elite more often allied with states to the south rather than those that were once part of the Old Dominion From the earliest settlement of the area Virginians wrestled with both the political and cultural meaning of Virginia By examining the changing attitudes toward the early West Virginia's Western Visions offers a fascinating glimpse into the dreams of the Old Dominion's early leaders the challenges that faced them and their vision for Virginia's future L Scott Philyaw is associate professor of history at Western Carolina University He is a contributor to *After the Backcountry Rural Life in the Great Valley of Virginia 1800-1900* and his articles and reviews have appeared in the *Virginia Magazine of History and Biography* the *Journal of the Early Republic* and others

[Eastern Voyages, Western Visions](#) Margaret Topping, 2004 This collection of interdisciplinary essays explores the range of French and francophone encounters with the East from the medieval period to the present day book cover

[Western Visions of the Far East in a Transpacific Age, 1522-1657](#) Christina H. Lee, 2016-02-17 Bringing to bear the latest developments across various areas of research and disciplines this collection provides a broad perspective on how

Western Europe made sense of a complex multi faceted and by and large Sino centered East and Southeast Asia The volume covers the transpacific period after Magellan s opening of the transpacific route to the Far East and before the eventual dominance of the region by the British and the Dutch In contrast to the period of the Enlightenment during which Orientalist discourses arose this initial period of encounters and conquest is characterized by an enormous curiosity and a desire to seize not only materially but intellectually the lands and peoples of East Asia The essays investigate European visions of the Far East particularly of China and Japan and examine how and why particular representations of Asians and their cultural practices were constructed revised and adapted Collectively the essays show that images of the Far East were filtered by worldviews that ranged from being on the one hand universalistic and relatively equitable towards cultures to the other extreme unilaterally Eurocentric
