questions about addiction will find welcome answers in this groundbreaking philosophical inquiry into the addictive mind The
author helps readers to understand addiction existentially as a fundamental way in which we can be Addiction argues the
author bears witness to a basic human longing that no thing can satisfy It is a distortion of that longing one that misses its
mark the original meaning of sin It leads to a complex process of dis own ment in which the addict strips himself of
ownership over himself and his own life Genuine freedom from addiction ultimately requires practicing a radical form of
detachment in which we allow ordinary experience to wash over us with the full force of its true extra ordinariness This

reverses the process of disownment and returns us to ourselves. In such detachment we are given back responsibility, the ability truly to respond to events rather than just reacting to them. This major work is addressed to all those who have ever had to face addiction, either in themselves or in those they love and who are still struggling to understand it. Mining both Western and Eastern sources, psychology and spirituality as well as philosophy, *Addiction and Responsibility* brings an important topic to a new level.
