Working The Spirit:

Working the Spirit Joseph M. Murphy, 1995-01-30 An appreciative and user friendly book on religion in the African diaspora Murphy's skillfully drawn portraits offer an inviting introduction to the religious worlds of Vodou Candomble Santeria Revival Zion and the Black Church David W Wills Amherst College *Global Competitiveness: Business Transformation in the Digital Era* Ade Gafar Abdullah, Isma Widiaty, Cep Abdullah, 2019-07-09 The proceedings of the Economics and Business Competitiveness International Conference EBCICON provides a selection of papers either research results or literature reviews on business transformation in the digital era Nine major subject areas comprising accounting and governance customer relations entrepreneurship environmental issues finance and investment human capital industrial revolution 4.0 international issues and operations and supply chain management are presented in the proceedings These papers will provide new insights into the knowledge and practice of business and economics in the digital era Therefore parties involved in business and economics such as academics practitioners business leaders and others will be interested in the contents of the proceedings Three Proofs for the Existence of God Uchemadu Chée Kamanu, 2020-12-24 Three Proofs for the Existence of God gives scientific historic and prophetic proofs for the existence of God If we do not think that a computer or even a bicycle could have come up by chance without a designer could we think that man who made the computer could have come up by chance without a designer Chance and design are mutually exclusive the disproof of the one is the proof of the other There is no third option In biogenesis genetics dendrochronology geophysics and thermodynamics evolution theory has been disproved experimentally and observationally By default therefore design has been proven Any attempt by evolutionists to experimentally disprove design or prove chance ends up proving design The one conducting the experiment is the designer of that experiment and the result is his design If the experiment is left to chance nothing happens With historic data from the Bible added up we show the year God created man and other things Acts and relationships between God and his creation show up in other chapters to remind us that the Creator God lives and wills One of these chapters Black History in Scripture disproves the saying that Christianity is the white man's religion We show that the scriptures were translated into three African languages for ten centuries before there was an English Bible among other facts Did Jesus not live in Israel and Africa only Divinity Ev. Paul Mukendi, 2017-05-31 No book has ever attempted to deal with the subject of divinity in its entirety Here at long last is a comprehensive book dealing with divine beings in its complexity It provides the reader with accurate and insightful knowledge concerning the concept of divinity The author gives a clear explanation of the Triune nature of God God is one being manifest and existing in three distinct identities or persons which is further discussed as being comparable with the makeup of a human being God shares his divine nature with spiritual beings in the heavens with angels and on earth with humankind The divine nature of God resides in all spirits Therefore men have God's nature in their spirits they can communicate with and receive the things of the spiritual realm Through sin humanity

has lost the nature of God for all have sinned and fall short of the glory of God The purpose of the Bible is to spiritualize humankind because we have fallen short of the glory of God The broad focus of this book is to bring as many believers to a stage of maturity in the knowledge of Christ
