Basics of Stage Combat Andrew Ashenden, 2012 The single sword is the most used weapon on both stage and screen. The techniques used in single sword stage combat are derived from real combative methods used historically and modified for acting. Basics of Stage Combat: Single Sword instructs the reader about the foundations of safe, skillful single sword use in theater, film, and television. Actors both wishing to refresh their old skills and those new to stage combat will learn how to parry with a sword, move with a sword, and perfect the various movements required of them to perform a safe and realistic stage combat scene. Basics of Stage Combat: Single Sword will also help drama students who are taking stage combat classes or stage combat exams gain the confidence to embrace the complexities of working with a sword. Among the swords discussed are the single rapier, sabre, and the eighteenth-century small sword. This book does not discuss broadsword techniques. Chapters provide illustration and instruction about thrusts, lunges, hand positions, advancing and retreating, passing steps, binds, beats, and cutting with the sword, as well as basic fighting positions. A brief fight choreography sequence is included at the conclusion of the book.

The Transformation of Stage Combat in Nineteenth Century England Andres Xavier Lopez,2019 For a majority of the nineteenth century in England stage combat consisted of set routines called standard combats With names such as Square Eights Round Eights and Glasgow Tens they consisted of a series of cuts with one s

sword at an opponent's blade Rather than create specific fights for individual productions actors used these set forms of fighting because they were simple effective and could be performed at a moment's notice However by the end of the century a new form of fighting dominated the English stage arranged combats These consisted of a duel based on historical fighting styles and techniques which were arranged by a fencing master or a combat historian I argue that two changing aspects of theatrical production coupled with significant changes in society affected the practice of stage combat First scenic and costume design progressed from settings and costumes intended only to suggest a generic historical time period to representing a specific historical era I show that to align stage combat with the trend towards more historical accuracy in productions historians in the second half of the nineteenth century started researching fighting styles of past eras They then shared their research with the public through demonstrations books and articles Other individuals began arranging historically accurate duels for the stage
