Too Many Hands:

Private Security Contractors and New Wars Kateri Carmola, 2010-02-05 This book addresses the ambiguities of the growing use of private security contractors and provides guidance as to how our expectations about regulating this expanding service industry will have to be adjusted In the warzones of Iraq and Afghanistan many of those who carry weapons are not legally combatants nor are they protected civilians They are contracted by governments businesses and NGOs to provide armed security Often mistaken as members of armed forces they are instead part of a new protean proxy force that works alongside the military in a multitude of shifting roles and overseen by a matrix of contracts and regulations This book analyzes the growing industry of these private military and security companies PMSCs used in warzones and other high risk areas PMSCs are the result of a unique combination of circumstances including a change in the idea of soldiering insurance industry analyses that require security contractors and a need for governments to distance themselves from potentially criminal conduct The book argues that PMSCs are a unique type of organization combining attributes from worlds of the military business and humanitarian organizations This makes them particularly resistant to oversight The legal status of these companies and those they employ is also hard to ascertain which weakens the multiple regulatory tools available PMSCs also fall between the cracks in ethical debates about their use seeming to be both justifiable and objectionable This transformation in military operations is a seemingly irreversible product of more general changes in the relationship between the individual citizen and the state This book will be of much interest to students of private security companies war and conflict studies security studies and IR in general Kateri Carmola is the Christian A Johnson Professor of Political Science at Middlebury College in Vermont She received her Ph D from the University of California Berkeley 52 Great Poker Tips Lou Krieger, 2014-04-15 Written by bestselling poker author Lou Krieger Tips for every kind of poker situation at home online and at tournament Covers Texas Hold Em the world s most popular type of poker Part of successful bestselling 52 Great Tips series A leading poker guru gives you the essential tips to win at Texas Hold Em poker at any time whether at home at a tournament or playing online Lou Krieger author of the bestselling Poker Player s Bible covers the basics such as tips on when to fold when to call and when to raise but also gives you insider tips to help you raise your game The advice varies depending on whether you are playing in a tournament in a fixed limit game as is common in the USA or in a pot or no limit game the kind commonly found in the UK and much of Europe The tips cover the following categories of games limit cash games no limit or pot limit cash games tips for tournaments tips that work for all games specific online poker playing tips
