Current Therapy of Trauma and Surgical Critical Care - E-Book Juan A Asensio, Wayne J Meredith, 2022-01-26 Current Therapy of Trauma and Surgical Critical Care E Book **Traumatic Politics** Barry M. Shapiro, 2009-10-20 The opening events of the French Revolution have stood as some of the most familiar in modern European history Traumatic Politics emerges as a fresh voice from the existing historiography of this widely studied course of events In applying a psychological lens to the classic problem of why the French Revolution's first representative assembly was unable to reach a workable accommodation with Louis XVI Barry Shapiro contends that some of the key political decisions made by the Constituent Assembly were in large measure the product of traumatic reactions to the threats to the lives of its members in the summer of 1789 As a result Assembly policy frequently reflected a preoccupation with what had happened in the past rather than active engagement with present political realities In arguing that the manner in which the Assembly dealt with the king bears the imprint of the behavior that typically follows exposure to traumatic events Shapiro focuses on oscillating periods of traumatic repetition and traumatic denial Highlighting the historical impact of what could be viewed as a relatively mild trauma he suggests that trauma theory has a much wider field of potential applicability than that previously established by historians who have generally confined themselves to studying the impact of massively traumatic events such as war and genocide Moreover in emphasizing the extent to which monarchical loyalties remained intact on the eve of the Revolution this book also challenges the widely accepted contention that prerevolutionary cultural and discursive innovations had desacralized the king well before 1789 **RFID in Operations and Supply Chain Management** Thorsten Blecker, 2008
