Bjerke-Clarke, 2025-04-30T00:00:00Z Felix Babimoosay is his most recent name and it seems better than any other name he's been offered. He journeys ever forward across a sharp landscape of flat plains stung by insects, wind, and thirst. Unable to remember his past, he doggedly walks alone through the decaying world until he is pursued by a threatening man claiming a bounty on Felix's head. Felix's irritation spurs a slow memory of the days he left behind until he stumbles into a corrupted town and a city of talking crows that push him to move beyond his lost memories. Sparse and dreamy, Griffin Bjerke-Clarke's debut novel explores memory, identity, trauma, and healing through a timeless journey. M.T.'s storytelling methods and elements of horror infuse *He Who Would Walk the Earth*, an anti-colonial western that powerfully evokes a mood reminiscent of twentieth-century classics like *Waiting for Godot*. This book unsettles as much as it stokes dystopian in Felix's apathy yet optimistic in the way he addresses challenges along his listless way. In the end, Felix must learn from his earnest mistakes as he begins to understand that agency requires collaborating with those around him. *The New Voices of Science Fiction* Nino Cipri, Rich Larson, Darcie Little Badger, S. Thus Marjorie Stelmach chides herself for failing to quite discover a language equal to the deepest mysteries, death, and loss. This piercing collection of poems, this anatomy of grief, plays out on the desolate shores of Ireland. a

care center for the elderly and in the poet's memory and imagination It is the simplest and oldest of stories a daughter mourns her mother's death But in facing her anguish so directly in struggling so courageously to give words and meaning to the unknowable Stelmach has forged a terrible beauty I can hardly imagine an artist worthier of her art George Bilgere
