Digital Productivity Pro:

Proceedings of the 4th International Conference on Education and Technology (ICETECH 2023) Jeffry Handhika, Marheny Lukitasari, Sigit Ricahyono, Dewanta Arya Nugraha, 2024-11-28 This is an open access book. There has been an extraordinary acceleration in the use of digital technology in the world of education during the Covid 19 pandemic. So it is necessary to have discussions and solutions on how digital technology can be the answer to problems of access to quality and social justice in the education sector. Researchers and experts are encouraged to innovate across fields to support the four global issues of G20: presidential education, Universal Quality Education, Digital Technologies in Education, Solidarity and Partnership, The Future of Work, Post Covid 19. The 4th International Conference on Education and Technology ICETECH 2023 organized by Universitas PGRI Madiun, UNIPMA Indonesia is a forum for researchers, experts, academics, educators, stakeholders, and students to exchange experiences through research results in STEAM Based Education, Digital humanities, Artificial Intelligence, Applied Science, Curriculum and Instruction, Digital Entrepreneurs, Digital Education, Financial Technology, and Education. *National Educational Technology Standards for Teachers* International Society for Technology in Education, 2002 Standards were developed to guide educational leaders in recognizing and addressing the essential conditions for effective use of technology to support P 12 education. *Quality in Teacher Education and Professional Development* John Chi-Kin Lee, Timo Ehmke, 2021-09-28 This book addresses the past and changing contexts of Chinese and German teacher education under the impact of globalization and echoes quality issues of teacher education. This edited book provides a comprehensive discussion on other issues in the management and implementation of change in teacher education related to teacher education curricula for professional development of teachers. A combination of chapters provides an overview, a review of literature and research as well as offering examples of teacher education practice and updated empirical research on these topics co-edited by two senior scholars and written by experts from Mainland China including Hong Kong and Germany. The volume addresses key issues on teacher standards, ICT in education and e-learning in teacher education, STEM education, vocational teacher education, university school partnership in teacher education and teaching Chinese or German as a second language. This is an up-to-date academic book to look at profound issues related to quality in teacher education and teachers' professional development in mainland China and Germany. It will be a useful reference for graduate students and researchers in the field of international and comparative education, teacher education and curriculum studies, teacher educators and practitioners to learn from trends, best practice and challenges that have been encountered in Mainland China and Germany. *Digital Quicksand* Laura Stack, 2013 Do you waste time checking your social media sites every day?
