Aristotle's Psychology Aristotle,1902 [Aristotle's ›Generation of Animals‹](#) Sabine Föllinger,2022-06-21 Aristotle s work On Generation of Animals is fascinating By integrating empirical facts into contexts of justification and by explaining reproduction in the framework of his general theory Aristotle wrote a biological masterpiece At the same time it raises many issues because due to the difficulty of the subject under investigation for example the egg cell had not yet been discovered the theory is complex and often speculative The contributions in this volume resulting from a conference held in Marburg in 2018 study the challenging writing from various perspectives They examine the structure of the work the method and the manner of writing its relation to other writings and its scientific context By investigating the underlying philosophical concepts and their relation to the empirical research offered in On Generation of Animals the contributions also try to solve puzzles which Aristotle s explanation of the role of male and female offers as well as his idea of embryogenesis An outlook for the history of reception rounds off the volume **Selections** René Descartes,1927 **DESCARTES SELECTIONS** ,1927

Theological Works: The intercourse between the soul and the body Emanuel Swedenborg,1893 **Aristotle on Sexual Difference** Marguerite Deslauriers,2022 Aristotle on Sexual Difference is a book about Aristotle s understanding of the differences between male and females and men and women It considers what he says about biological differences between the sexes and about psychological differences that he thinks justify different political roles for men and women It discusses the authors who preceded Aristotle highlighting that they treat sexual difference as a misfortune and women as an evil inflicted on men This book demonstrates that Aristotle rejects that view and that he argues for the benefit of sexual difference to animal species and the value of women to their political communities It also traces a connection between Aristotle s accounts of the physiological defects of women and of their political limitations *Physiology of the Soul and Instinct, as Distinguished from Materialism* Martyn Paine,1872 [The Senses and the Intellect](#) Alexander Bain,1874
