**Synaesthesia and the Ancient Senses** Shane Butler, Alex Purves, 2014-09-03 Like us the ancient Greeks and Romans came to know and understand the world through their senses Yet sensory experience has rarely been considered in the study of antiquity and when the senses are examined sight is regularly privileged Synaesthesia and the Ancient Senses presents a radical reappraisal of antiquity's textures flavours and aromas sounds and sights It offers both a fresh look at society in the ancient world and an opportunity to deepen the reading of classical literature The book will appeal to readers in classical society and literature philosophy and cultural history All Greek and Latin is translated and technical matters are explained for the non specialist The introduction sets the ancient senses within the history of aesthetics and the subsequent essays explore the senses throughout the classical period and on to the modern reception of classical literature      **The Sound Structure of Modern Irish** Raymond Hickey, 2015-02-17 The Sound Structure of Modern Irish contains a comprehensive description of the phonology of Irish Based on the main forms of the language it offers an analysis of the segments and the processes in its sound system Each section begins with a description of the area of phonology which is the subject such as stress patterns phonotactics epenthesis or metathesis and then proceeds to consider the special aspects of this subject from a theoretical and typological perspective The book pays particular attention to key processes in the sound system of modern Irish The two most important of these are palatalisation and initial mutation phenomena which are central to Irish and the analysis of which has consequences for general phonological theory The other main emphasis in the book is on a typological comparison of several different languages all of which show palatalisation and or initial mutation as part of their systems The different forms of Celtic Slavic languages Romance dialects and languages along with languages such as Finnish Fula Nivkh and Southern Paiute are considered to find out how processes which are phonetic in origin external sandhi can become functionalised and integrated into the morphosyntactic system of a language      Structure and Functional in the
