
THE SOURCES OF NORMATIVITY

Christine M. Korsgaard

Sources Of Normativity

**I.F. Dekker, W.G.
Werner, Rijksuniversiteit te Utrecht**

Sources Of Normativity:

The Sources of Normativity Christine M. Korsgaard, 1996-06-28 Ethical concepts are or purport to be normative They make claims on us they command oblige recommend or guide Or at least when we invoke them we make claims on one another but where does their authority over us or ours over one another come from Christine Korsgaard identifies four accounts of the source of normativity that have been advocated by modern moral philosophers voluntarism realism reflective endorsement and the appeal to autonomy She traces their history showing how each developed in response to the prior one and comparing their early versions with those on the contemporary philosophical scene Kant's theory that normativity springs from our own autonomy emerges as a synthesis of the other three and Korsgaard concludes with her own version of the Kantian account Her discussion is followed by commentary from G A Cohen Raymond Geuss Thomas Nagel and Bernard Williams and a reply by Korsgaard

The Sources of Normativity Christine Marion Korsgaard, 2014-05-14 Korsgaard's discussion of the source of normativity is followed by commentary from four distinguished philosophers Normativity and Agency Tamar Schapiro, Kyla Ebels-Duggan, Sharon Street, 2022-07-14 Christine M Korsgaard has had a profound influence on moral philosophy over the past forty years Through her writing and teaching she has developed a distinctive rigorous and historically informed way of thinking about ethics agency and the normative dimension of human life more generally The twelve original essays in this volume are written in her honor on the occasion of her retirement from teaching They engage questions that recur in her work Why are we obligated to do what morality demands What features of our nature make us subject to moral obligation What does it mean to be autonomous and responsible for what we do What do we owe to nonhuman animals Contributors include Stephen Darwall Kyla Ebels Duggan Barbara Herman Richard Moran Japa Pallikkathayil Faviola Rivera Castro T M Scanlon Tamar Schapiro Sharon Street David Sussman Sigr n Svavarsd ttir and David Velleman These essays shed light on Korsgaard's own views while staking out provocative new positions on the topics that feature centrally in her own work Governance and International Legal Theory I.F. Dekker, W.G.

Werner, Rijksuniversiteit te Utrecht, 2014-11-14 This book discusses the above mentioned topics from a multidisciplinary perspective Strong Evaluation Without Moral Sources Arto Laitinen, 2008 Charles Taylor is one of the leading living philosophers In this book Arto Laitinen studies and develops further Taylor's philosophical views on human agency personhood selfhood and identity He defends Taylor's view that our ethical understandings of values so called strong evaluations play a central role The book also develops and defends Taylor's form of value realism as a view on the nature of ethical values or values in general The book criticizes Taylor's view that God nature or human reason are possible constitutive sources of value Laitinen argues that we should drop the **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2006 An international journal of general philosophy *Norms and Nature* Jay L. Garfield, Doris Silbert Professor in the Humanities and Professor of Philosophy and

Buddhist Studies Emeritus Jay L Garfield,2026-01-09 Norms and Nature examines what it is to be human in the full sense of that term Garfield shows how much of our existence as persons depends upon a set of interlocking virtuous spirals that enable the development of the communities that make normativity possible and on the development of the sets of norms that enable those communities to sustain themselves Michigan Law Review ,1999 **Reading Ideas in Victorian Literature** Patrick Fessenbecker,2020-05-01 Argues against the repeated emphasis on literary form and for the artistic importance of literary content Appeals to those interested in philosophy and literature especially the philosophy of literature Brings together thinkers from the analytic and continental traditions in aesthetics Contains an updated and expanded version of the award winning essay In Defence of Paraphrase Makes a case for why Victorian literature and Victorian moral thought are worthy of attention Offers new readings of George Eliot Anthony Trollope and Augusta Webster It is natural to assume that if works of literature are artistically valuable it s not because of anything they say but because of what they are beautiful Works of art try to say nothing to use their content only as matter for realizing the beauty of complex form But what if appreciating the things a work of literature has to say is a way of appreciating it as a work of art Often dismissed as too lengthy messy and preachy to qualify as genuine art in fact Victorian narrative challenges our conceptions about what makes art worth engaging Social Theory and Practice ,2015-04 Social Construction of Law Michael Giudice,2020-10-30 This illuminating book explores the theme of social constructionism in legal theory It questions just how much freedom and power social groups really have to construct and reconstruct law **Semiotics and Philosophy in Charles Sanders Peirce** Rossella Fabbrichesi,Susanna Marietti,2006 The subject of this book is the thought of the American pragmatist and founder of semiotics Charles Sanders Peirce The book collects the papers presented to the International Conference Semiotics and Philosophy in C S Peirce Milan April 2005 together with some additional new contributions by well known Peirce scholars bearing witness to the vigour of Peircean scholarship in Italy and also hosting some of the most significant international voices on this topic The book is introduced by the two editors and is divided into three sections corresponding to the three main areas of the most interesting contemporary reflection on Peirce Namely Semiotics and the Logic of Inquiry part I Abduction and Philosophy of Mathematics part II Peirce and the Western Tradition part III The analysis is carried out from a semiotic perspective in which semiotics should not be understood as a specific doctrine but rather as the philosophical core of Peirce TM s system As we read in the introduction oeit is semiotics and philosophy or rather semiotics as philosophy and philosophy as semiotics which emerge from a reading of these papers **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association,2009 List of members in v
1 American Philosophical Quarterly Nicholas Rescher,2006 The Canadian Journal of Law and Jurisprudence ,2002 **Sociological Approaches to Theories of Law** Brian Z. Tamanaha,2022-06-23 Sociological Approaches to Theories of Law applies empirical insights to examine theories of law proffered by analytical jurists The topics covered include

artifact legal theory law as a social construction idealized accounts of the function of law the dis embeddeness of legal systems the purported guidance function of law the false social efficacy thesis missteps in the quest to answer What is law and the relationship between empiricism and analytical jurisprudence The analysis shows that on a number of central issues analytical jurists assert positions inconsistent with the social reality of law Woven throughout the text the author presents a theoretically and empirically informed account of law as a social institution The overarching theme is that philosophical claims about the nature of law can be tested and improved through greater empirical input *Inquisition and the Definition of Identity in Early Abbasid History* John Persons Turner, 2001 **Oxford Studies in Metaethics** Russ Shafer-Landau, 2009 *Norms and Values* Joram Graf Haber, Mark S. Halfon, 1998 Virginia Held best known for her book *Rights and Goods* has made her mark in the fields of ethics feminist philosophy and social and political thought These essays by leading philosophers range over all these areas While each stands alone the essays together demonstrate the lasting value of Held's work to the field *NATURALIZING THE NORMATIVE (NATURALISM)*. ERIC H. GAMPEL, 1991 that they depend on outdated views of conceptual analysis I argue that both objections misfire though for interesting reasons and that the anti reduction argument succeeds

This is likewise one of the factors by obtaining the soft documents of this **Sources Of Normativity** by online. You might not require more get older to spend to go to the books creation as without difficulty as search for them. In some cases, you likewise pull off not discover the broadcast Sources Of Normativity that you are looking for. It will definitely squander the time.

However below, subsequently you visit this web page, it will be hence unconditionally simple to get as capably as download lead Sources Of Normativity

It will not take many grow old as we run by before. You can complete it even though do its stuff something else at home and even in your workplace. for that reason easy! So, are you question? Just exercise just what we manage to pay for below as skillfully as review **Sources Of Normativity** what you as soon as to read!
