Soviet Air Force Fighters William Green, Gordon Swanborough, 1977 **Red Phoenix Rising** Von Hardesty, Ilya Grinberg, 2021-07-01 A groundbreaking account of the Soviet Air Force in World War II the original version of this book Red Phoenix was hailed by the Washington Post as both brilliant and monumental That version has now been completely overhauled in the wake of an avalanche of declassified Russian archival sources combat documents and statistical information made available in the past three decades The result Red Phoenix Rising is nothing less than definitive The saga of the Soviet air force one of the least chronicled aspects of the war marked a transition from near annihilation in 1941 to the world's largest operational tactical air force four years later Von Hardesty and Ilya Grinberg reveal the dynamic changes in tactics and operational art that allowed the VVS to bring about that remarkable transformation Drawing upon a wider array of primary sources well beyond the uncritical and ultra patriotic Soviet memoirs underpinning the original version this volume corrects updates and amplifies its predecessor In the process it challenges many official accounts and revises misconceptions promoted by scholars who relied heavily on German sources thus enlarging our understanding of the brutal campaigns fought on the Eastern Front The authors describe the air campaigns as they unfolded with full chapters devoted to the monumental victories at Moscow Stalingrad and Kursk By combining the deeply affecting human drama of pilots relentlessly confronted by lethal threats in the air and on the ground with a rich technical understanding of complex military machines they have produced a fast paced riveting look at the air war on the Eastern Front as it has never been seen before They also address dilemmas faced by the Soviet Air Force in the immediate postwar era as it moved to adopt the new technology of long range bombers jet propulsion and nuclear arms Drawing heavily upon individual accounts down to the unit level Hardesty and Grinberg greatly enhance our understanding of their story's human dimension while the book's more than 100 photos many never before seen in the West vividly portray the high stakes and hardware of this dramatic tale In sum this is the definitive one volume account of a vital but still underserved dimension of the war surpassing its predecessor so decisively that no fan of that earlier work can afford to miss it **Soviet Air Power** Anthony Robinson, 1983 En god orientering om Sovjetunionens flyvevæben herunder dets organisatoriske inddeling fly og missiler strategiske luftforsvars og

taktiske styrker helikopter og transportenheder m v A History of Soviet Air Power Robert A. Kilmarx,1962 **The Soviet Air Force in World War II** Soviet Union. Ministerstvo oborony, Union of Soviet Socialist Republics. Ministry of Defence,1973 *Soviet Air Force Fighter Colours 1941-1945* Erik Pilawskii,2003 This book represents probably the most detailed study published in the English language of the camouflage and markings of the fighter aircraft of the Soviet Air Force during World War II Erik Pilawskii is a scholar of the Soviet Air Force in World War II and has undertaken several years of research to produce this ground breaking book With information drawn from previously inaccessible Soviet archives the author first presents a detailed analysis of the developments trends patterns and irregularities of the color systems seen on Russian fighters and offers a fascinating insight into the workings of the Soviet manufacturing system responsible for this task He then brings readers a technical study of each of the main fighter aircraft and variants and each description is followed by coverage of camouflage and markings factory applied field variations and seasonal The text is supported by hundreds of rare and previously unpublished photographs and more than 40 commissioned full color artworks Furthermore hundreds of color illustrations portray the immense variety of patterns related to this fascinating subject This book will be a must have for all students of Soviet air power and Russian aircraft modelers A Bibliography of the Soviet Air Force in World War II Von Hardesty,1979
