Egan,1990 Now that the West has been so satisfactorily won entrepreneurs are willing and eager to offer their services to the waiting virgin wilderness they deem to be the economic frontier of the next century Here is help in the form of nearly 50 papers on policy commercial and technical aspects of the potential The topics include engineering materials in space remote sensing pharmaceuticals and life sciences telecommunications facilities and services the business environment and government investment in their endeavors Reproduced from the authors copies No bibliography Book club price 95 Annotation copyrighted by Book News Inc Portland OR **International Aerospace Abstracts** ,1990 Space Commercialization F. Shahrokhi,George A. Hazelrigg,R. J. Bayuzick,1990 space commercialization activities are mainly in the areas of telecommunication and Earth observation The commercial use of space for microgravity processing remains elusive The reasons for this are the knowledge base for microgravity processing is inadequate and flight opportunities and hardware are too expensive lengthy and risky to provide a reasonable return on investment Furthermore previous unrealistic predictions of large benefits from space manufacturing of

crystals biomaterials and other materials have created a negative image of microgravity opportunities especially in connection with the justification of manned space flights and the construction of a large space infrastructure This volume reports on the progress in Space Commercialization activities
