SPACETIME TRANSIENTS  
AND UNUSUAL EVENTS

A person in a wetsuit is crawling through a tunnel of water, illuminated by a bright light source. The water is a deep teal color, and the person is positioned in the center-right of the frame, moving towards the left. The light source is a bright, circular glow behind the person, creating a strong contrast and casting long shadows. The overall scene is surreal and evocative, suggesting a journey through a fluid, dynamic environment.

[The New Circlemakers](#) Andrew Collins, 2009-03 What is the mystery of the crop circles Are they manmade or supernatural Today the majestic crop formations grace the very same pastures of southern England that in the past were the haunts of fairies hobgoblins and mysterious lights Here too are some of Britain's most spectacular prehistoric landscapes Stonehenge Avebury and Silbury Hill all act as ominous backdrops to the crop circle phenomenon Did our ancestors know something about this beguiling enchanting landscape that we are only now waking up to for the first time Is there a higher intelligence responsible for such creations and if so who are they and what are they trying to tell us Bizarrely the answer might lie not here on earth but 37 000 light years away in the constellation of Cygnus the Northern Cross where lurks a star perhaps responsible not only for the foundation of the world's earliest stone monuments but for the emergence of humanity itself      [CRACKS IN TIME](#) KARMEN-ITA, What if certain places remember Sixty two children in Zimbabwe 1994 Passengers on a commercial flight 1973 Cadets at West Point 1972 Different continents different decades the same experience figures in period clothing moving through space as if time had never moved on *Cracks in Time* doesn't ask you to believe It asks you to look at the evidence Drawing on M theory piezoelectric physics electromagnetic research and the neuroscience of anomalous perception this book builds a scientific case for something witnesses have reported for centuries that certain locations stone buildings geological fault zones industrial ruins may retain and replay fragments of human activity across time Not a ghost story A hypothesis And the data behind it is harder to dismiss than you think      **Science, Mind and Paranormal Experience** Eric Lord, 2009-03-28 Speculations about paranormal phenomena and how they might be reconciled with

Kripal,2011-09-30 In many ways twentieth century America was the land of superheroes and science fiction From Superman and Batman to the Fantastic Four and the X Men these pop culture juggernauts with their powers and abilities far beyond those of mortal men thrilled readers and audiences and simultaneously embodied a host of our dreams and fears about modern life and the onrushing future But that s just scratching the surface says Jeffrey Kripal In *Mutants and Mystics* Kripal offers a brilliantly insightful account of how comic book heroes have helped their creators and fans alike explore and express a wealth of paranormal experiences ignored by mainstream science Delving deeply into the work of major figures in the field from Jack Kirby s cosmic superhero sagas and Philip K Dick s futuristic head trips to Alan Moore s sex magic and Whitley Strieber s communion with visitors Kripal shows how creators turned to science fiction to convey the reality of the inexplicable and the paranormal they experienced in their lives Expanded consciousness found its language in the metaphors of sci fi incredible powers unprecedented mutations time loops and vast intergalactic intelligences and the deeper influences of mythology and religion that these in turn drew from the wildly creative work that followed caught the imaginations of millions Moving deftly from Cold War science and Fredric Wertham s anticomics crusade to gnostic revelation and alien abduction Kripal spins out a hidden history of American culture rich with mythical themes and shot through with an awareness that there are other realities far beyond our everyday understanding A bravura performance beautifully illustrated in full color throughout and brimming over with incredible personal stories *Mutants and Mystics* is that rarest of things a book that is guaranteed to broaden and maybe even blow your mind      *Beyond 2012: Catastrophe or Awakening?* Geoff Stray,2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar s Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening

along a number of parallel tracks This book offers an extensive study of many modern theories including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date **UFO Headquarters** Susan Wright,1998-08-15 The government said it need Area 51 to protect America They said they needed it for research Now some say it has all been a terrible lie In the annals of UFO controversies there has never been a place like this sixty square miles of desert and scrub just north of Las Vegas Nevada Officially known as a U S Air Force testing ground this area has accounted for more UFO sightings and more inexplicable activity than any other in the world leading experts to dub Area 51 Earth's unofficial UFO headquarters Now UFO writer Susan Wright seeks to answer the riddle once and for all delving into previously secret government documents drawing on eyewitness accounts and ripping the veil of secrecy off Area 51 and the research that really goes on there The result is the most shocking and thoroughly documented UFO book you have ever read a book that demonstrates that for fifty years the U S government has had one overriding policy on Area 51 whenever confronted with suspicious facts or photographs conceal deny and lie **Observing Ufos** Richard F.
