## **The League Guide To Safe And Enjoyable Cycling:**

**The League Guide to Safe and Enjoyable Cycling** Amy Thompson, Sami Fournier, 2004      **Smart Cycling** League of American Bicyclists, 2011

Cycling is experiencing a resurgence in popularity. Many people are looking to cycling as the solution to concerns about rising fuel costs, environmental issues, and lack of exercise. Biking to school or work is inexpensive, active, and green, but some children have never learned to ride a bike, and many adults haven't dusted off their bikes in years. These new cyclists need help building their skills before they take to the road. If your school or organization wants to offer bicycle skill and safety classes in your community, **Smart Cycling: Promoting Safety, Fun, Fitness, and the Environment** is the one resource you will need. In the book, the League of American Bicyclists shares proven instructional strategies that will help you teach cyclists of any age the basics they should know before hopping on a bike. **Smart Cycling: Promoting Safety, Fun, Fitness, and the Environment** contains all the information you need to teach new or returning cyclists to take to the road safely and confidently. Tips on choosing the bike and gear that best fit their needs, whether they're commuting to school or work or riding for fun on the weekends. An overview of basic cycling skills that all cyclists should know, such as braking, turning, and shifting gears, which serves as essential instruction for new riders or as a refresher for those returning to biking. Coverage of the most common rules of the road, as well as information on moving appropriately through traffic, which will help them ride safely and legally. Basic maintenance and quick repairs that will help them keep their bikes in road-ready shape. Safety strategies, avoidance maneuvers, and advice on choosing a route that fits their skill level, commuting and riding in groups. The book also includes the **Enjoy Your Ride DVD**, which contains four videos that can be shown to participants to help them better visualize the skills being taught. The first video, **Essential Bicycling Skills**, is an overview of all of the information covered in the book. **Bicycle Safety Tips for Adults** focuses on the most important safety skills that adult riders should know. **Cyclist's Eye View** uses video from a bike-mounted camera to show the proper techniques for operating a bike confidently in traffic. **Kid's Eye View**, included in both English and Spanish, covers safety skills appropriate for children or parents who want to teach their children how to ride a bike. Cycling is an equal opportunity adventure. From adults commuting to work and kids riding to school to families exploring the trails that cross their cities, cycling offers everyone a chance to stay active and have fun. They just need help getting started. Take the first step toward making your community healthier, happier, and more bicycle-friendly with **Smart Cycling**.

**How to Live Well Without Owning a Car** Chris Balish, 2006-09-01

You don't need to own a car to live well in America. In fact, you'd probably be better off without one. In this groundbreaking guide, award-winning journalist Chris Balish exposes the true costs of car ownership and shows how car-free living can put anyone on the path to financial freedom. Using the book's car cost worksheet, first figure out how much owning a car really costs; you'll be surprised.
