Benjamin Franklin stands out as one of the most highly esteemed figures of the nineteenth century. His autobiography, *Benjamin Franklin*, is a record of the life of one of the most impressive people in American history. Although unfinished, it represents one of the most famous and influential examples of an autobiography ever written. His book is the record of an unusual life told in his own unexcelled conversational style. The autobiography is Franklin's longest work, and yet it is only a fragment of it. The account of Franklin's life is divided in a manner that reflects the different periods in which he wrote them. The first part, written as a letter to his son William Franklin, was not intended for publication; the composition is more informal and the narrative more personal than in the second part, from 1730 onward, which was written with a view to publication.
