Women and Comedy Peter Dickinson, Anne Higgins, Paul Matthew St. Pierre, Diana Solomon, Sean Zwagerman, 2014-03-27 *Women and Comedy* History Theory Practice presents the most current international scholarship on the complexity and subversive potential of women s comedic speech literature and performance Earlier comedy theorists such as Freud and Bergson did not envision women as either the agents or audiences of comedy only as its targets Only more recently have scholarly studies of comedy begun to recognize and historicize women s contributions to and political uses of comedy The essays collected here demonstrate the breadth of current scholarship on gender and comedy spanning centuries of literature and a diversity of methodologies Through a reconsideration of literary theatrical and mass media texts from the Classical period to the present *Women and Comedy* History Theory Practice responds to the historical

marginalization and or trivialization of both women and comedy The essays collected in this volume assert the importance of recognizing the role of women and comedy in order to understand these texts their historical contexts and their possibilities and limits as models for social engagement In the spirit of comedy itself these analyses allow for opportunities to challenge and reevaluate the theoretical approaches themselves

Hunks, Hotties, and Pretty Boys Steven L. Davis, Maglina Lubovich, 2010-08-11 White heterosexual middle class men have long served as the standard for masculine beauty even if such men have refused to embrace this term This study seeks to denaturalize this standard by exploring the connections between beauty and the broad spectrum of masculinities The chapters included in *Hunks Hotties and Pretty Boys* contribute primarily to the field of gender studies specifically masculinity studies They consider twentieth century representations of male beauty through a variety of mediums performance literature art photography film and television Although the contributors hail from both the humanities and the social sciences all share a concern for how beauty informs shapes defines and re defines our understanding of masculinity itself These scholars investigate a range of historical periods and draw from a broad scope of critical approaches Some interrogate male beauty through the female gaze and look to the influence of female performance on notions of masculine beauty Others examine how queer and racial constructions of male beauty refuse and offer alternatives to hegemonic models of identity Another revisits previous philosophical and theoretical conceptions of beauty only to deconstruct gendered conceptions of the beautiful and the sublime In all these essays complicate masculine beauty by examining Chicano Asian working class and female constructions of male beauty in Western culture

Nietzsche and the Becoming of Life Vanessa Lemm, 2014-10-15 Throughout his writing career Nietzsche advocated the affirmation of earthly life as a way to counteract nihilism and asceticism This volume takes stock of the complexities and wide ranging perspectives that Nietzsche brings to bear on the problem of life's becoming on Earth by engaging various interpretative paradigms reaching from

existentialist to Darwinist readings of Nietzsche In an age in which the biological sciences claim to have unlocked the deepest secrets and codes of life the essays in this volume propose a more skeptical view Life is both what is closest and what is furthest from us because life experiments through us as much as we experiment with it because life keeps our thinking and our habits always moving in a state of recurring nomadism Nietzsche s philosophy is perhaps the clearest expression of the antinomy contained in the idea of studying life and in the Socratic ideal of an examined life and remains a deep source of wisdom about living

Public Secrets and Private Sufferings in the South African AIDS Epidemic

Jonathan Stadler,2021-04-26 This book tells the story of the HIV epidemic in South Africa and asks why after more than three decades it has not normalised Despite considerable efforts to prevent infection and ambitious targets set to end the epidemic by 2030 HIV infections are increasing among young women and treatment uptake and adherence have been uneven Focusing on the years preceding and following treatment access this book addresses why an end to AIDS may be misplaced optimism By examining public discourses and private narratives about infection illness and death this work reveals the contradictions between the lived experiences of AIDS suffering on the one hand and biomedical certainties on the other Based on long term ethnographic research in rural villages of the South African lowveld and within HIV prevention interventions in South Africa more generally this book offers an intimate perspective on the social and cultural responses to the epidemic

Rebel Men

Pamela Hunt,2022-05-10 Masculinity fast changing and regularly declared to be in the throes of crisis is attracting more popular and scholarly debate in China than ever before At the same time Chinese literature since 1989 has been characterized as brimming with countercultural attitude This book probes the link between literary rebellion and manhood in China showing how as male writers critique the outcomes of decades of market reform they also ask the same question how best to be a man in the new postsocialist order In this first full length discussion of masculinity in post 1989 Chinese literature Pamela Hunt offers a detailed analysis of four contemporary authors in particular Zhu Wen Feng Tang Xu Zechen and Han Han In a series of insightful readings she explores how all four writers show the same preoccupation with the figure of the man on the edges of society Drawing on longstanding Chinese and global models of maverick as well as marginal masculinity and responding to a desire to retain a measure of masculine authority their characters all engage in forms of transgression that still rely heavily on heteronormative and patriarchal values Rebel Men argues that masculinity so often overlooked in literary analysis of contemporary China continues to be renegotiated debated and agonized over and is ultimately reconstructed as more powerful than before An exceptionally lucid elegant study of masculinity in mainland Chinese fiction of the 1990s and 2000s Both historically and theoretically informed Rebel Men Masculinity and Attitude in Postsocialist Chinese Literature offers a major new perspective on post 1989 Chinese counterculture Julia Lovell Birkbeck University of London
