Forces need to redefine themselves in terms of mission doctrine training or organization as a result of their evolving roles conditioned by an asymmetric threat environment The study examined the relevance of core collateral and emerging missions It concluded that basic SF doctrine remains sound but the changing environment and evolving roles of SF will call for a certain amount of refinement Tactics techniques and procedures will change as new technologies are introduced into SF organizations but emphasis on the human element remains essential and SF core competencies and warrior skills must be preserved The study concluded with recommendations to preserve the relevance and efficiency of SF as the premier mechanism for extending U S influence in a world of increased global interaction required to meet security needs
