The Truth About Win-Win Negotiating Leigh L. Thompson, 2010-07-29 This is the eBook version of the printed book This Element is an excerpt from The Truth About Negotiations 9780136007364 by Leigh Thompson Available in print and digital formats What win win negotiation really means and how to put it to work for you Seasoned negotiators will tell you the only good negotiation is one that ends in a win win Yet some people think that simply means reaching any agreement Others think it s a negotiation that leaves all parties still speaking Still others think it means dividing everything equally down the middle Although all these outcomes are desirable none captures the central concept of a win win negotiation **WIN-WIN: An Everyday Guide to Negotiating** David Goldwich, 2020-06-15 We all negotiate every day yet few people ever learn how to negotiate Those who do usually learn the old school adversarial approach that is only useful in a one off negotiation where you will never see the other party again However such transactions are becoming increasingly rare because most of us deal with the same people repeatedly our spouses and children our friends and colleagues our customers and bosses We need to achieve successful results for ourselves while maintaining healthy relationships with our negotiating partners In today s interconnected world a win win outcome is fast becoming the only acceptable result This book will show you how to get that win win You will also learn how to distinguish interests from positions and uncover hidden interests use negotiating alchemy to create value out of nothing appreciate the beauty of no on your way to yes force your counterpart to consider your needs frame issues to your advantage recognize when to make the first offer make and demand concessions know when to compromise and when to try for something better develop a powerful Plan B so you cannot lose manage emotions biases and other psychological pitfalls use common negotiating tactics and counter tactics overcome an impasse negotiate successfully with powerful counterparts prepare for any negotiation using an eight step template and much more WIN-WIN NEGOTIATION Silviu Vasile, Negotiation skills are about two things influence and this is the leadership qualities you have and the power of persuasion and reaching agreement These two qualities can be practiced daily because the negotiation process never stops You will always want something you don t have and to get the service or product you want you will have to turn to the person or people who do Bargaining as I said is the way to satisfy an interest It is without doubt a form of communication and persuasion which is why we have introduced both persuasion and communication into the Culture of Value It is information that if you go through it you will be able to succeed better in your quest to get what you want Negotiation is a skill that can be learned easily It helps you cope in certain circumstances You can use negotiation techniques in sales purchases contracts The most important thing is that a negotiator learns to prepare It depends on how much you want to get what you want in the end The more you want the better you will prepare for the negotiation and show during the negotiation process that you are not so interested in the final result A good negotiator knows how to plan everything efficiently and well All you need to do is to value your ideas and believe that you are valuable Negotiating is not a battle not

for today or tomorrow but for your whole life I can only challenge you to read this book as well as the others in Value Culture and wish you success
