Windoms Way:

Cinema and Unconventional Warfare in the Twentieth Century Paul B. Rich, 2018-08-23 Cinematic representations of unconventional warfare have received sporadic attention to date. However, this pattern has now begun to change with the rise of insurgency and counter insurgency in Iraq and Afghanistan and the growing importance of jihadist terrorism in the wake of 9/11. This ground-breaking study provides a much-needed examination of global unconventional warfare in 20th-century filmmaking with case studies from the United States, Britain, Ireland, France, Italy, and Israel. Paul B. Rich examines Hollywood's treatment of counterterrorism and counterinsurgency in the United States, British postcolonial insurgencies in Malaya and Kenya, and British special operations in the Second World War, the Irish conflict before and during the Troubles, French filmmaking and the reluctance to deal with the bitter war in Algeria in the 1950s, Italian neorealism and its impact on films dealing with urban insurgency by Roberto Rossellini, Nanni Loy, and Gillo Pontecorvo, and Israel and the upsurge of Palestinian terrorism. Whilst only a small number of films on these conflicts have been able to rise above stereotyping insurgents and terrorists in some cases due to a pattern of screen orientalism, *Cinema and Unconventional Warfare in the Twentieth Century* stresses the positive political gains to be derived from humanizing terrorists and terrorists' movements, especially in the context of modern jihadist terrorism. This is essential reading for academics, postgraduates, and advanced undergraduates interested in 20th-century military history, politics, and international relations, and film studies. **Windom's Way** James Ramsey Ullman, 1952 *British Cinema in the Fifties* Christine Geraghty, 2000 This text explores some of the key debates about British cinema and film theory and examines the curious mix of rebellion and conformity which marked British cinema in the post-war era. Post-World War II Masculinities in British and American Literature and Culture Stefan Horlacher, Kevin Floyd, 2016-04-08 Analyzing literary texts, plays, films, and photographs within a transatlantic framework, this volume explores the inseparable and mutually influential relationship between different forms of national identity in Great Britain and the United States and the construction of masculinity in each country. The contributors take up issues related to how certain kinds of nationally specific masculine identifications are produced, how these change over time, and how literature and other forms of cultural representation eventually question and deconstruct their own myths of masculinity. Focusing on the period from the end of World War II to the 1980s, the essays each take up a topic with particular cultural and historical resonance: whether it is hypermasculinity in early cold-war films, the articulation of male anxieties in plays by Arthur Miller, David Mamet, and Sam Shepard, the evolution of photographic depictions of masculinity from the 1960s to the 1980s, or the representations of masculinity in the fiction of American and British writers such as Patricia Highsmith, Richard Yates, John Braine, Martin Amis, Evan S. Connell, James Dickey, John Berger, Philip Roth, Frank Chin, and Maxine Hong Kingston. The editors and contributors make a case for the importance of understanding the larger context for the emergence of more pluralistic, culturally differentiated, and ultimately transnational masculinities, arguing that it is possible to conceptualize and

emphasize difference and commonality simultaneously *Malaysia*, 1958 **Opportunity**, 1932 *To be a Woman* Carl Edmund Rollyson, 2005 This biography of the film maker writer and feminist Jill Craigie is an intimate portrait of an influential and charismatic woman Craigie became the first woman to establish a national reputation in the documentary film field most notably as a result of her 1944 film *Out of Chaos* After a four year affair with MP Michael Foot the couple married in 1949 As the women s movement grew in strength in Britain during the 60s and 70s Craigie became an inspirational figure for many of its leaders and an active participant in many feminist causes For this book Carl Rollyson was given access to the archive in Foot s Hampstead home which contains Craigie s research notes drafts of her journalism and scripts and her correspondence with an array of major historical figures ranging from prime ministers to writers film makers and artists He interviews Craigie s daughter Julie as well as a range of her surviving friends and Michael Foot talks with frankness about his marriage the strains which were placed upon it by his own infidelities and his pride in having shared the life of so remarkable a woman **The Heart of Hope** Norval Richardson, 1905 **Smiling Huaraches** Jess Lee, 1952 *Englishness and Empire 1939-1965* Wendy Webster, 2007-10-11 Did loss of imperial power and the end of empire have any significant impact on British culture and identity after 1945 Within a burgeoning literature on national identity and what it means to be British this is a question that has received surprisingly little attention *Englishness and Empire* makes an important and original contribution to recent debates about the domestic consequences of the end of empire Wendy Webster explores popular narratives of nation in the mainstream media archive newspapers newsreels radio film and television The contours of the study generally follow stories told through prolific filmic and television imagery the Second World War the Coronation and Everest colonial wars of the 1950s and Winston Churchill s funeral The book analyses three main narratives that conflicted and collided in the period a Commonwealth that promised to maintain Britishness as a global identity siege narratives of colonial wars and immigration that showed a little England threatened by empire and its legacies and a story of national greatness celebrating the martial masculinity of British officers and leaders through which imperial identity leaked into narratives of the Second World War developed after 1945 The book also explores the significance of America to post imperial Britain *Englishness and Empire* considers how far and in what contexts and unexpected places imperial identity and loss of imperial power resonated in popular narratives of nation As the first monograph to investigate the significance of empire and its legacies in shaping national identity after 1945 this is an important study for all scholars interested in questions of national identity and their intersections with gender race empire immigration and decolonization Trail and Timberline, 1927 Memorial Tributes to the Character and Public Services of William Windom, 1891 **United States of America** V.
