Woman An Intimate Geography:

Woman Natalie Angier,2000 The author explores the essence of what it means to be a woman in body and mind as she shares her thoughts on everything from organs to orgasm and menopause

Sex Itself Sarah S. Richardson,2013-12-13 Human genomes are 99.9 percent identical with one prominent exception Instead of a matching pair of X chromosomes men carry a single X coupled with a tiny chromosome called the Y Tracking the emergence of a new and distinctive way of thinking about sex represented by the unalterable simple and visually compelling binary of the X and Y chromosomes Sex Itself examines the interaction between cultural gender norms and genetic theories of sex from the beginning of the twentieth century to the present postgenomic age Using methods from history philosophy and gender studies of science Sarah S Richardson uncovers how gender has helped to shape the research practices questions asked theories and models and descriptive language used in sex chromosome research From the earliest theories of chromosomal sex determination to the mid century hypothesis of the aggressive XYY supermale to the debate about Y chromosome degeneration to the recent claim that male and female genomes are more different than those of humans and chimpanzees Richardson shows how cultural gender conceptions influence the genetic science of sex Richardson shows how sexual science of the past continues to resonate in ways both subtle and explicit in contemporary research on the genetics of sex and gender With the completion of the Human Genome Project genes and chromosomes are moving to the center of the biology of sex Sex Itself offers a compelling argument for the importance of ongoing critical dialogue on how cultural conceptions of gender operate within the science of sex

On Not Being Able to Sleep Jacqueline Rose,2021-02-09 In these powerful essays Jacqueline Rose delves into the questions that keep us awake at night

into issues of privacy and writing exposure and shame Do women writers Christina Rossetti Anne Sexton Sylvia Plath have a special talent for self revelation Or are they simply more vulnerable to the invasions of biography What ethical questions are raised by Ted Hughes s role in Plath s writing life What do Adrienne Rich and Natalie Angier reveal about the destiny of feminism In its affinity with modernist writing what can psychoanalysis tell us about the limits of knowledge both about the most intimate components of experience and the most hallucinatory reaches of the mind Have psychoanalytic writers today and the very institution of psychoanalysis remained faithful to the most potent and disturbing aspects of Freud s vision Finally Rose addresses some of the most dramatic public performances of our times the cult of celebrity with its contrasting obsessions with Princess Diana and the child murderer Mary Bell and South Africa s Truth and Reconciliation Commission which in a stirring last essay allows Rose to explore the ethical and political responsibilities of thought and speech in times of historical crisis Moving deftly with style force and clarity between our public political and private unconscious worlds On Not Being Able to Sleep forges a unique set of links between feminism psychoanalysis literature and politics The result is a book well worth staying up late to read one that exposes the uncomfortable borderland between our desire to speak out and be silent between the stage of the world and of the mind **Seeing Nature Through Gender** Virginia Scharff,2003

Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women s actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd s masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred bunnies Others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake

the gendered patterns we've engraved on ourselves and on the planet

Silences, or a Woman's Life Marie Chaix, 2013-01-03 A woman falls into a coma Perhaps she's going to die Becoming the sleeper's shadow the woman's daughter will accompany her mother through six weeks of agony bearing witness to the prolonged death imposed upon her by the monstrous machine of modern medicine During this final voyage through the fog the narrator attempts to recover the vivacious woman she knew before this illness the mad lover the romantic spouse the musician who sacrificed her dreams to the reality of life with her husband By assembling her memories of the dying woman gluing together scraps of recollections like puzzle pieces Marie Chaix reconstructs the portrait of a woman who she deeply loved a blurred silhouette forever fixed in that museum of dust where each life ends [The New Yorker](#) ,1999 [The Publishers Weekly](#) ,1917 [The V Book](#)
