Woman In Islamic Shariah:

Woman in Islamic Shari'ah Vaḥīduddīn Khān,2000 The book tries to clear the notion that to interpret the Islamic concept of woman as degradation of woman is to distort the actual issue Islam has never asserted that woman is inferior to man it has only made the point that woman is differently constituted The prophet used a parable to explain the delicacy of women s nature pointing out that they should be treated in accordance with their nature Their delicate emotional constitution should always be borne in mind *Woman in Shari'ah (Islamic Law)* Abdur Rahman I. Doi,1989 *Woman in Islam* Ahmad Zaki Yamani,2005 **Women in Shari'ah (Islamic Law)** Abdur Rahman I. Doi,1990 **Advancing the Legal Status of Women in Islamic Law** Mona Samadi,2021-05-25 Mona Samadi examines the sources of gender differences within the Islamic legal tradition and describes how Islamic law entitles individuals to justice according to their status abilities and potential In the case of men and women s capabilities the underlying principle is that they are entitled to the same rights as long as their capabilities are the same In the legal construction of women s status women have been prescribed lacking the same abilities and capabilities as men As such their status and rights differ justifying men to be the maintainers of women By presenting the historical development of women s status and how women s legal status is debated in contemporary Muslim societies Mona Samadi convincingly provides various methods for facilitating change within the Islamic legal theory framework *Women in Classical Islamic Law* Susan Ann Spector,2010 Drawing on legal and ad th texts from the formative and classical periods of Islamic legal history this book offers an overview of the development of the questions prominent jurists asked and answered about women s issues All assumed a woman would marry and thus the book concentrates on women s family life The introduction establishes the historical framework within which the jurists worked A chapter on Qur n verses devoted to women s lives is followed by chapters on marriage and divorce which compare the views of jurists during the formative period The fourth chapter describes the evolution from the formative to the classical periods The fifth uses material from both periods to describe the array of legal opinion about other aspects of women s lives in and outside their homes Throughout jurists opinions are juxtaposed with relevant quotations from contemporaneous ad th collections **The Status of Women under Islamic Law and Modern Islamic Legislation** Jamal J. Nasir,2009-04-15 This book is believed to be the first of its kind written by a renowned Muslim lawyer in the English language and by an Arab author who is probably the leading authority writing in English in the subject of Islamic law the Sharia and modern Islamic legislation There has long been a need for an objective study such as this dealing with the legal rights and obligations of women under the Sharia and under modern Arab Islamic legislation Seen within the broad principles of Islamic law the book examines the status of women with regard to marriage the iddat parentage and fosterage and custody and fills an important gap left by recent and more general publications on Islamic law The author has researched original Arabic and Islamic text books and reviewed legislation in the different Arab countries in order to present the most up to date information on the

subject It is hoped that this clear objective account will dispel many of the commonly held misconceptions about the status of Muslim women in the modern world This book will provide an enlightenment and deeper understanding of the subject not only for legal practitioners but for all those concerned or with an interest in the subject particularly Muslim communities in non Muslim countries indeed non Muslim women who may be or indeed non Muslim women who may be married to Muslims

Purdah and the Status of Woman in Islam Syed Abul 'Ala Maudoodi,1972 **Status of Women in Islam** Ahmed Abdul Magid Hammoud,2001 Women in Islam F. P. Hanna,2015-03-01 One of the most controversial issues of our time is the rights of women in the world in general and in Islam and Islamic law in particular The issue for example of wearing the Burka the Hijab by Muslim women in public places schools and in courts has made it recently to the front covers of most newspapers and magazines Some countries have already banned the Burka in public places others are reluctant for fear of limiting freedom and multiculturalism But what happens to a western woman who goes to a Muslim country such as Saudi Arabia where Islamic law the Sharia is applied Is she allowed to wear a mini skirt or a dress of her liking in public places Or is she able to wear a bikini on the beach Almost all Muslim scholars and writers including women have defended the position of women in Islam While they draw their arguments on a very limited number of verses Surah in the Qur an and Hadith however they take them out of their context in trying to prove that women under Islam are free and their human rights are protected This book shows how Islam has always considered women as inferior to men in every aspect physically intellectually morally and religiously Their demise and denial of their basic rights are God sanctioned laws that every Muslim follows not just fundamentalists Indeed the Qur an remains for all Muslims the uncreated word of God Himself It is valid for all times and places its ideas are absolutely true and beyond all criticism To question it is to question the very word of God and hence blasphemous A Muslim s duty is to believe it and obey its divine commands blindly This non fiction book reveals the shocking truth about the real position of women in the Qur an the Hadith in Islamic law the Sharia and how Islam is deeply anti women It reports the shocking truth of how women are denied their basic human rights in the Islamic law and in real life **The Rights of Women in Islam** Asghar Ali Engineer,1992 The related issue of introduction of a common civil code doing away with religiously discriminating laws is considered

Woman in Islamic Shari'ah Vaḥīduddīn Khān,1995 **Women and Shari'a Law** Elham Manea,2016-05-27 In response to recent media controversy and public debate about legal pluralism and multiculturalism Manea argues against what she identifies as the growing tendency for people to be treated as homogenous groups in Western academic discourse rather than as individuals with authentic voices Building on her knowledge of the situation for women in Middle Eastern and Islamic countries she undertakes first hand analysis of the Islamic shari a councils and Muslim arbitration tribunals in various British cities Based on meetings with the leading sheikhs including the only woman on their panels as well as interviews with

Muslim Women in Law and Society Ronak Husni, Daniel L. Feminism and Islam Mai Yamani, Andrew Allen, 1996-12 In an age when Western feminism is continuously undergoing redefinition the struggles of women in Muslim countries are often overlooked This volume illustrates how women in Islamic societies have become more actively involved not only in learning their rights under the shari'a Islamic law but in rereading this law to improve their status and gain increased equality and freedom Surveying Iran Saudi Arabia Lebanon Egypt and Arab societies in general Feminism and Islam brings together renowned women researchers and academics historians political scientists lawyers sociologists social anthropologists and literary critics to examine the phenomenon of feminism within the Islamic cultural framework Introducing a feminism which is Islamic in its form and context the essays focus on such subjects as crimes of honor and the construction of gender in Arab societies law and the desire for social control women and entrepreneurship family legislation and the political strategies of feminists in the Islamic world Back cover
