Woman With A Voice:

The Woman's Voice Patsy Rodenburg, 2023-02-09 Why are so many women still not properly listened to Why do they sometimes feel that they are less interesting than they are Why do they often rush when they speak Why do some women feel the pressure to sound like little girls From one of the world's leading experts on the voice comes this call to arms for women to reclaim their voices Using elements of experience and practice from her prolific career Patsy Rodenburg examines these questions and many more to decipher what lies at the heart of female empowerment From the age of four Rodenburg knew that she found communication difficult Her struggle with her own voice set her on the journey that led her to discover her vocation She has spent her life re-finding and re-empowering voices particularly the lost voices of women Watching her highly intelligent working class mother and grandmother ignored and often silenced gave her the insight to investigate why that was and how to help women overcome this centuries old issue With warmth and humour Rodenburg interrogates Shakespeare's texts and his presentation of female characters develops the notion of rhetoric in relation to the female voice and applies concepts explored in her previous books including *The Three Circles of Energy* And perhaps most crucially through arguing that power and voice are directly linked to breath Rodenburg makes the case that Western society's oppression of women has diminished their natural ability to breathe Exploring the female voice through practical exercises and stories from the front line as well as profoundly personal and formative experiences from her own life Rodenburg defines the art of accessing the voice within and reclaiming the woman's right to speak *The Woman's Voice* is also available in audiobook format from audiobook retailers

The Power of a Woman's Voice in Medieval and Early Modern Literatures Albrecht Classen, 2007 The study takes the received view among scholars that women in the Middle Ages were faced with sustained misogyny and that their voices were seldom heard in public and subjects it to a critical analysis The ten chapters deal with various aspects of the question and the voices of a variety of authors both female and male are heard The study opens with an enquiry into violence against women including in texts by male writers Hartmann von Aue Gottfried von Strauburg Wolfram von Eschenbach which indeed describe instances of violence but adopt an extremely critical stance towards them It then proceeds to show how women were able to develop an independent identity in various genres and could present themselves as authorities in the public eye Mystic texts by Hildegard of Bingen Marie de France and Margery Kempe the medieval conduct poem known as *Die Winsbeckin* the *Devout Books of Sisters* composed in convents in South West Germany but also quasi historical documents such as the memoirs of Helene Kottaner or Anna Weckerin's cookery book demonstrate that far more women were in the public gaze than had hitherto been assumed and that they possessed the self confidence to establish their positions with their intellectual and their literary achievements
