Great Ideas that Built Our Nation Jerry E. Jennings, 1979 Discusses the many factors that enabled the United States to evolve into one of the world s largest and richest nations

They Built a Nation Francis Clancy, 1939 *The Birth of a Nation* Dick Lehr, 2017-01-10 In 1915 two men one a journalist agitator the other a technically brilliant filmmaker incited a public confrontation that roiled America pitting black against white Hollywood against Boston and free speech against civil rights Monroe Trotter and D W Griffith were fighting over a film that dramatized the Civil War and Reconstruction in a post

Confederate South Almost fifty years earlier Monroe's father James was a sergeant in an all black Union regiment that marched into Charleston South Carolina just as the Kentucky cavalry including Roaring Jack Griffith D W's father fled for their lives Griffith's film *The Birth of a Nation* included actors in blackface heroic portraits of Knights of the Ku Klux Klan and a depiction of Lincoln's assassination Freed slaves were portrayed as villainous vengeful slovenly and dangerous to the sanctity of American values It was tremendously successful eventually seen by 25 million Americans But violent protests against the film flared up across the country Monroe Trotter's titanic crusade to have the film censored became a blueprint for dissent during the 1950s and 1960s This is the fiery story of a revolutionary moment for mass media and the nascent civil rights movement and the men clashing over the cultural and political soul of a still young America standing at the cusp of its greatest days

The History of the Hebrew Nation and Its Literature Samuel Sharpe, 1908 *Amnesia and the Nation* Vincent J. Cheng, 2018-03-30 This book examines the relationships between memory history and national identity through an interdisciplinary analysis of James Joyce's works as well as of literary texts by Kundera Ford Fitzgerald and Walker Percy Drawing on thinkers such as Nietzsche Marx Freud Luria Anderson and Yerushalmi this study explores the burden of the past and the nightmare of history in Ireland and in the American South from the Battle of the Boyne to the Good Friday Agreement from the Civil War to the 2015 Mother Emanuel killings *From Colony to Nation* Anne S. Macpherson, 2007-01-01 The first book on women's political history in Belize From Colony to Nation demonstrates that women were creators of and activists within the two principal political currents of twentieth century Belize colonial middle class reform and popular labor nationalism

Paranormal Nation Marc E. Fitch, 2013-03-21 This thought provoking study of paranormal phenomena traces the impact of supernatural beliefs on popular culture and conversely examines the influence of new communication technologies on research being conducted in the field Did you know that interest in UFO research increased during the 1960s as a result of the Kennedy assassination Or that America experienced a Satanic Panic in the 1980s that culminated with the longest most expensive court trial in American history This book reviews the history economy and community of paranormal research in this country and considers the deeper meaning behind the philosophies and theories surrounding the industry Paranormal Nation Why America Needs Ghosts UFOs and Bigfoot explores the events that have defined paranormal belief systems today From the birth of religious doctrine to European witch hunts to the increasing popularity of the supernatural in American television programming the author examines the past and present conditions that have fueled interest in the unexplained and considers what this trend means for modern day America

Nation, 1922 **The Nation at Work on the Public School Curriculum** National Education Association of the United States. Department of Superintendence, 1929 **Christian Nation**, 1928 The Nation, 1911 The American Idea Alexander Hamilton, James Madison, John Jay, 2026-05-19 The American Idea goes straight to the source to let the Founders speak directly to our time This essential collection presents the complete Declaration of Independence Constitution

and Bill of Rights alongside something no other collection offers all 85 Federalist Papers distilled into clear powerful summaries that preserve Hamilton's fire, Madison's precision and Jay's strategic brilliance. Each summary faithfully captures the urgency of a young nation fighting for survival and the revolutionary ideas that still shape major court decisions and political debates today. Key original passages anchor each summary, preserving the Founders' actual voices. Beyond the constitutional core, discover the flawed Articles of Confederation that nearly doomed the republic and Washington's Farewell Address and its warnings about political division.
