Western sports fans including professionalism fan violence corruption political meddling the sports press television and the effect of big money on competition More than just a sports book Serious Fun takes us deep into the social fabric of Soviet life Edelman shows how the Big Red machine so visible in international competition was much like the giant steel mills and dams of which the Soviets boasted These were the achievements of a state that put production above all else but spectator sport was part of a long suffering consumer sector that the industrial giant would never satisfy This volume will bring a broader richer understanding of Soviet life not only to students of popular culture and Russian history but to sports fans everywhere
