As Pilgrims Progress - Learning how Christians can walk hand in hand when they don't see eye to eye Stephen John March, David E. Bjork, 2015-05-29 This book is for Roman Catholic and Evangelical Protestant lay people who wonder what relationship if any they might have with their friends who come from a different Christian faith tradition than their own The authors aim to address that question in a practical way They believe that while disagreements remain it is possible to preserve the integrity of the faith while relating positively to Christians who cherish other beliefs The opinions expressed in this book grew out of nearly thirty years of experience as evangelical protestant missionaries ministering in catholic parish communities in France The goal of the book is to move the readers beyond simply understanding each other to a place where they might begin using their diversity to stimulate and encourage each other in our common pursuit of obedient discipleship We know of no other book which targets ecumenical lay relations in this way

Rediscovering a Ministry of Health Helen A. Wordsworth, 2015-02-20 It is not possible to look at the ministry of Jesus without noticing his concern for the poor and the sick He not only had a huge sense of compassion for people who were suffering but sent people out to heal the sick and tell them the Kingdom of God is near them This concern for health and wholeness has inspired Christians through the ages as they have cared for the sick founded hospitals and been at the forefront of public health movements In the nineteenth century the church was one of the major influencers in initiating ministries of health both through the work of its own deaconesses and the involvement of its members as they felt a sense of vocation to nursing and public health work Florence Nightingale was a theologian and statistician as well as being a nurse leader However with the advent of state health provision and private health insurance schemes the role of the local church in health has diminished This book describes a simple way for churches to re engage with health ministry and presents evidence that underlines not only a Biblical authenticity for its place in the mission of a local church but also a compelling rationale for its implementation It will be of interest to church leaders and all those involved in health care
