

A man in a dark suit and white shirt is shown from the chest up, leaning back with his head tilted upwards. He is looking towards a cityscape at night, which is partially obscured by a large, glowing, fiery orb or planet in the sky. The sky is a mix of orange, red, and yellow, suggesting a sunset or a fire. The overall mood is contemplative and dramatic.

Heller, 2023-11-14 Just Beyond Listening asks how we might think about encounters with sound that complicate standard accounts of aurality In a series of essays Michael C Heller considers how sound functions in dialogue with a range of sensory and affective modalities including physical co presence textual interference and spectral haunting The text investigates sound that is experienced in other parts of the body altered by cross wirings of the senses weaponized by the military or mediated and changed by cultural practices and memory Building on recent scholarship in sound studies and affect theory Heller questions not only how sound propagates acoustically but how sonic presences temper our total experience of the world around us Digital and Postdigital Learning for Changing Universities Maggi Savin-Baden, 2023-10-27 This book explores the purpose role and function of the university and examines the disconnection between students approaches to learning and university strategy It centres on the idea that it is vital to explore what counts as a university in the twenty first century what it is for and for whom as well as how it can transcend social divisions The universities of the twenty first century need to have larger audiences a broader voice a shift away from othering and an effective means of progressing such shifts What is central to such exploration is the idea that learning needs to be seen as postdigital With a focus on how the

growth of technology has and continues to affect university learning this book explores the concepts of the digital and the postdigital promotes just and inclusive pedagogies for higher education considers ways to ensure learning is an ethical and political experience studies how to understand community and collective values through higher education suggests ways of promoting personal and collective responsibility for our world and its peoples presents ways in which the university can challenge ideologies based on capitalist modes of consumption privilege and exploitation Digital and Postdigital Learning for Changing Universities is essential reading for anyone seeking to reimagine the university in a postdigital age despite institutional structuration and government intervention It challenges current assumptions and practices and encourages new ways of thinking about higher education and learning in the twenty first century Stop the Hate for Goodness Sake Andrew B Campbell, Larry Swartz, 2023-03-23 Stop the Hate for Goodness Sake shows teachers how to confront racism and disrupt discrimination in order to deepen students understanding of social justice diversity and equity Background information statistics and reports on incidents of hate will help students consider ethical and moral behavior Forty step by step lessons involve discussion oral and written narratives case studies assumption charts and more This thoughtful examination of today s world will help teachers encourage reflection foster inclusion and inspire students to take action This in depth guide will show teachers of 8 to 14 year olds how to start and manage important conversations that will lead to change The Mission Field ,1914 **The Standard** ,1916 *Anxiously Yours* Nishita Patil, 2022-01-26 In the times of distress amidst a pandemic where we are forced to get glued to screens and caged amidst four walls mental health and digital well being has put many from our young generation at a health risk *Anxiously Yours* is a collective endeavour of more than 20 writers from all over the world to tell each and every reader that you re not alone Hope you find the peace you re looking for through this book *Spaces for Silence, and Other Essays* Mother Mary Francis, 1964 *The Art of Sensorial Language* Barbara Pia Jenič, 2025-07-31 The Art of Sensorial Language examines audience interactivity and multisensory experiences that can be understood internationally and cross culturally It considers interactivity not as a technological mode of interaction but as a direct and immediate communication between the audience and the performers which takes place in person and in which all participants are in contact with each other By describing theatrical techniques and approaches for organically immersing the audience in the story this book shows how the development of these methods is also applicable to multisensory presentations for museums and galleries The author places particular emphasis on the development of scents and their uses for cultural and educational purposes to allow for greater and deeper immersion in an event or installation Inspired by the work of Enrique Vargas the inventor of sensorial language the discussion reveals how this approach not only engages the senses but also integrates additional methods and tools to create a poetic symphony which is particularly important for enriching user experiences in theatres galleries and museums as well as in other forms of immersive experiences This study will be of great interest to experts in multisensory approaches within the fields of the arts and

education as well as specialists in cultural heritage and tourism

**The Routledge Handbook of AI and Literature** Will Slocombe, Genevieve Liveley, 2024-12-30 The Routledge Handbook of AI and Literature provides an invaluable resource for those interested in deepening their understanding of the variety of theories and approaches available when AI is studied or deployed in literary contexts. It also illustrates ways in which AI researchers can use literary lenses to better understand the sociotechnical dynamics and cultural imaginaries shaping human interactions with AI. Both AI and literature are understood in their broadest senses here. The book incorporates chapters that deal with Large Language Models, Generative AI, transformer architectures, story generators, and computational analysis. Literary case studies embrace performance, poetry, comics, as well as prose, and span a wide range of historical periods from the ancient world to contemporary science fiction and Generative AI poetry. The Handbook brings together early career contributors as well as some of the best known names in the digital humanities and computational literary studies. It offers a fresh perspective on the past, present, and future of AI and literature that will appeal to students and scholars with relevant interests across a range of subjects including AI, Engineering, Classics, Computing, Digital Humanities, English, Ethics, Film and Television, Law, and Narratology.

**From Overseas** Overseas, 1927 *The Lyric West*, 1924 [The American Friend](#), 1925 [The Dance of Youth](#) Julia Cooley Altrocchi, 1917 *The Silent God and the Silenced* Min-Ah Cho, 2025-02-01 A groundbreaking exploration of the transformative power of silence. *The Silent God and the Silenced: Mysticism and Contemplation amid Suffering* explores the theological and spiritual dimensions of silence, challenging traditional speech-silence dichotomies. Cho investigates the silenced voices of the vulnerable, interweaving Christian mysticism, literature, and art to reveal silence's subversive potential in unlearning dominant narratives. The book advocates a theological approach that seriously considers silence and prioritizes attentive listening to promote genuine accountability. By engaging with figures such as Evagrius Ponticus, Hadewijch of Antwerp, Michel de Certeau, and Simone Weil alongside contemporary voices like Theresa Hak Kyung Cha and Arundhati Roy, the book offers fresh perspectives on the transformative power of silence in today's turbulent world. This interdisciplinary exploration will intrigue scholars and enthusiasts of theology, literature, and art. Readers will discover how silence can serve as a counterpoint to the noise and violence of modern life, providing avenues for resisting injustice and fostering contemplative, transformative pathways to spiritual and intellectual growth.
